Ike's Granting Of Leave to Stassen Eyed

Presidential Aide Given 30 Days Off For Politicking

WASHINGTON (AP) — President Eisenhower's grant of a 30-day leave to Harold Stassen was under study today with reference to the presidential aide's campaign to keep Vice President Nixon off the 1956 Republican ticket.

Stassen asked and received yesterday a month's relief from his job as presidential disarmament assistant to pursue his effort to replace Nixon with Gov. Christian A. Herter of Massachusetts as No. 2 man on the GOP ticket.

Eisenhower's granting of Stassen's request was subject to the interpretation in some quarters that Stassen was being encouraged in his effort, but no support for that view was voiced by any GOP sources available for comment.

In Ventura, Calif., the president of the Republican League of California says California will go Democratic if Nixon is renominated.

Albert Levitt, whose organization has no official connection with the Republican party, said he telegraphed Stassen saying:

"Your opposition to Vice President Nixon is proper and justified. If the Republicans nominate Nixon for vice president, California will go Democratic in the November election."

One political observer expressed the opinion that "Stassen is either pulling the biggest boo-boo of his political career or else knows something the rest of us do not."

About noon today, GOP National Chairman Leonard W. Hall, a staunch backer of an Eisenhower-Nixon ticket, voiced willingness for Stassen or any convention delegate to "place any name he desires in nomination for the vice presidency."

Some high in administration counsels said they expect Eisenhower to repeat at a news conference tomorrow that he would be delighted to have Nixon as his running mate.

BUT THEY SAID they do not believe he will exclude other possible nominees since that might be regarded as an attempt to dictate to the Republican National Convention which meets less than three weeks hence.

The leave of absence for Stassen "to pursue certain political activities without involving his office" (Please Turn to Page Twelve)

Maybe it was just a prank, but you can't blame two hard-working Milledgeville Cub Scouts if they don't see it that way.

Bobbie Russell and Bill Creamer, aged 8 and 9, spent a lot of hours on those two sets of leathercraft articles which vanished from the Milledgeville Cub Pack booth at the Fairground sometime between Friday afternoon and closing time Saturday. Their exhibits, which included leather-covered paperweights, scissors cases and other small articles, weren't of great intrinsic value, but the boys were proud of them.

They'd be delighted if anyone knowing the whereabouts of the missing articles would mail them back home—and they'd be glad to pay the postage.

That grand champion market lamb of last week's Junior Fair here is going to Memorial Hospital for a special treat for the patients.

The 101 pound choice lamb was raised by David Cook as a 4-H project and entered in the show at the Fair. He was judged the grand champion—the best of the 52 top grade lambs there.

David took the trophy and put his lamb in the auction Friday night.

He was bought by the Helfrich Supermarket for \$111.10 on a bid of \$110 a hundred and then donated to the hospital.

Miss Jane Jefferson, hospital dietitian, obviously pleased, said "we serve lamb as often as we can at the hospital as a special treat. We have roast lamb and lamb chops . . . actually, lamb is so digestible and cuts out so well, we can use every bit of it."

There was no doubt that the lamb, and the generosity of the Helfrich brothers, was appreciated at the hospital. The patients will feel the same way, too, as soon as it turns up on their trays.

Miss Christine Evans, the hospital administrator, said she had not had time to talk with Miss Jefferson and was not sure when it would be served, but hinted it probably would be for a special occasion some Sunday in the near future.

TEEN-AGE TRAGEDY ON MT. HOOD—Marking a tragic end to a teen-age climbing lark on icy Mt. Hood in Oregon, a New York girl is killed and her 18 boy and girl companions injured when they skid 1,000 feet into a snowy crevasse. The dead girl was identified as Lynn Kaufman, 15, of Larchmont, N. Y. Top photo shows Robert Silen of New York City being treated for a leg fracture at Sitcom hut in Mt. Hood. Three of the injured were (lower, from left) Meredith Stebbins, 16, Wayland, Mass.; Sidney H. Rosenberg, 16, Plainfield, N. J., and Robert A. Brawer, 18, Fair Lawn, N. J.

Fire Razes Home for Aged In Missouri; 12 Persons Die

PUXICO, Mo. (AP) — Fire swept quickly through the Reagan Nursing Home last night killing 12 of the 13 residents, most of them in or beside their beds.

Nine of those who perished were 72 to 91. All were from Puxico or nearby towns. One was bedfast.

Only Mrs. Sherry Frederick, an elderly patient, escaped. Two men scrambled up to the roof of the front porch, broke out a window of her second-floor room and pulled her to safety.

The body of Mrs. Bertha Reagan, 55, who renovated the old three-story building and opened her nursing home 21 months ago, was found in the first-floor kitchen. She apparently was trying to get out the back door but it was locked.

Aluminum-Plants Facing Walkout

NEW YORK (AP)—Union and industry negotiators try again today to avert a strike at midnight tonight in plants that turn out 75 per cent of the nation's aluminum.

Contract talks resumed both here and in Pittsburgh this morning in an effort to head off a walk-out by 43,000 workers.

The talks involve two companies, Alcoa and the Reynolds Metals Co. and two unions, the United Steelworkers of America and the Aluminum Workers International Union. Alcoa said in Pittsburgh that it had offered both unions a three-year, no-strike contract patterned after the settlement in the steel strike.

U. S. Makes New Progress In Nuclear Field, AEC Says

WASHINGTON (AP) — The United States is developing various types of atomic and hydrogen weapons based on "new principles" and is expanding its plants to be ready to turn them out in quantity.

This was disclosed today by the Atomic Energy Commission in its semiannual report to Congress covering the six months ended June 30. During this period, the AEC said, there was progress in every principal aspect of the nation's atomic energy program.

"The emphasis in the military applications program during the last six months was upon research and development related to expanding the categories of nuclear weapons, including those intended primarily for defense."

Other points made by the report:

1. "Notable progress" was made "toward designing, constructing and operating nuclear power reactors to generate economically competitive electricity in the United States." The report offered no estimate of when such competitive power would be achieved.

2. CONSTRUCTION of a second nuclear-powered submarine, the Seawolf, "nearly completed."

3. Research toward perfecting atomic-powered aircraft "progressing satisfactorily."

4. Research designed to harness the H-bomb reaction so that it could be used as a source of peaceful industrial power "went forward" in five different labs.

5. New methods were developed during the last six months "for using atomic energy products and techniques to treat cancers."

Four Lions Clubs To Give Blood

Bloodmobile Coming Here Again Thursday

The four Lions Clubs in Fayette County today were being counted on to come through with their joint project and send the bloodmobile back to the Red Cross blood bank in Columbus Thursday with at least 150 pints of blood, the county's quota, although only 61 pledge cards had been received by Mrs. Leonard Korn, Red Cross secretary here, by Monday evening.

The four clubs — in Bloomingburg, Jeffersonville, Good Hope and Washington C. H. — have undertaken the sponsorship of the blood bank's mobile unit's visit here this time. With the sponsorship went the responsibility for recruiting donors.

The four clubs have a total membership of around 250 men—approximately 100 more than the county's blood quota of 150 pints.

Most of the Lions have been told at meetings during the past two months that they are expected to give blood themselves or get a substitute.

Mrs. Korn and Mrs. Charles Snaper, chairman of the county's blood program, made almost identical comments: "I have confidence that the Lions Clubs will see that Fayette County makes its quota . . . they never do fail on anything they undertake."

BUT, THEY made no attempt to conceal their concern over the few pledge cards that have come in. However, the concern was more over the tardiness of the pledges; for, they pointed out, they are the basis for working out a schedule of appointments that saves the donors time in waiting their turns and make for a smoother routine at the bloodmobile.

They said they felt that the shifting of the bloodmobile's visit here from Wednesday to Thursday (Please Turn to Page Twelve)

Medic Guilty In Death of Suitor, 53

ANNAPOLIS, Md. (AP)—A medical student who took a punch at an older man he thought had insulted his girl friend was convicted last night of manslaughter.

Dr. Richard M. Wick, 33-year-old metallurgist from Allentown, Pa., died last Feb. 18, two days after he was struck by Gregory M. Delli-Pizzi.

An all-male jury deliberated 2½ hours before convicting the 26-year-old student from Weirton, W. Va. Judge Benjamin Michaelson deferred sentencing Delli-Pizzi until Friday and said any motions by the defense would be argued then.

There was no indication whether an appeal would be filed. Delli-Pizzi's \$10,000 bail was continued. Delli-Pizzi faces up to 10 years in prison.

A previous trial in Baltimore ended in a jury disagreement.

Although Delli-Pizzi was indicted on a murder charge, the prosecution last night requested a manslaughter verdict.

Delli-Pizzi testified that Charlotte Holland, formerly of Huntington, W. Va., then his fiancée and now his wife, told him Wick had made improper advances toward her in the night club where she worked as a tap dancer.

Mrs. Delli-Pizzi said Dr. Wick, in Baltimore on a business trip for Bethlehem Steel Co., refused to let her remain alone.

More Polio Shots Available In Ohio

COLUMBUS (AP) — Ohio Children 1-through-19 and expectant mothers today became eligible for their second shot of anti-polio vaccine.

The state health department said recent increases in the supply of the vaccine made the move possible. Previously, the group had been restricted to one inoculation.

The department added that 222,200 CCs of the vaccine recently allocated to Ohio were released to regular commercial channels.

The announcement came with a report that the total number of cases reported this year is 101, compared to 256 last year.

Official Motto: 'In God We Trust'

GETTYSBURG, Pa. (AP) — The official motto of the United States now is "In God We Trust."

A congressional resolution making that phrase the national motto was signed yesterday by President Eisenhower.

Bobo Involved In New Hassle

Rockefeller Ex-Wife Arrested by Sheriff

LITTLE ROCK, Ark. (AP)—A famous domestic battle flared in a new setting yesterday, disturbing the peace of Winthrop Rockefeller's pastoral palace atop Petit Jean Mountain near here.

Rockefeller himself played no visible role in the latest hassle.

When the dust cleared, Mrs. Barbara (Bobo) Rockefeller, her attorney and two friends were arrested by Sheriff Marlin Hawkins of the nearby town of Morrilton amid a welter of claims.

The blonde ex-wife of the oil millionaire claimed she had gone from New York City to Winrock Farm after receiving a telephone call from her 8-year-old son Winnie's nurse, who had taken the boy for a regular visit to his father under a court agreement when the Rockefellers were divorced in 1954.

Bobo said the nurse told her that she was "forcibly removed" from Winrock Farm after she took the boy there Saturday.

Bobo responded by making a flying trip to Arkansas.

Gene Smith, a Rockefeller employee, and "several big men" met Bobo and her party at the gate.

BOBO SAID SHE saw her son swimming in a pool, called to him and then took him to her car. She said Smith grabbed the car keys while she tried to push him away. Then, she said, "Smith pulled me out, picked me up and threw me about 10 feet. I landed on the hard gravel road."

Towards evening, Bobo said, the sheriff arrived and ordered Bobo and her party to go with them to the Morrilton police station for "disturbing the peace."

Sheriff Hawkins said of Bobo and her companions that "they were very rude. I never dealt with people as rude as they on a minor charge."

36 Rock Quarry Prisoners Break Own Legs in Protest

BUFORD, Ga. (AP) — Thirty-six prisoners broke their own legs with 10-pound sledge hammers yesterday in protest against working conditions at Rock Quarry State Prison, the "Little Alcatraz" of the Georgia penal system.

Jack Forrester, state director of corrections, said a prison doctor told him 29 white and seven Negro inmates shattered bones in their legs during an afternoon rest period at a rock quarry where they were working half a mile from the prison.

He said the men placed their legs on rocks and "started whacking away" with the sledge hammers normally used to crush rock at the 34-acre quarry. There were no cries of pain, he said.

Guards watching the 189 prisoners in the fenced-in quarry were taking a rest at the time and said they did not notice what had happened until they ordered the men back to work.

Warden Hubert Smith said the injured men told him after the incident that they felt their wheelbarrows were too heavily loaded and the sun was too hot. Temperatures were in the low 90s at the time.

Rock Quarry prison was built in 1949. Forrester said it was used to house incorrigible prisoners and that men hard to handle were sent there from other prisons.

Smith said that prisoners work from 6 a. m. to 6 p. m., with half-hour breaks in the morning and afternoon, and a two-hour lunch break at noon.

The prison at Buford is in the north Georgia hills about 40 miles northeast of Atlanta.

The injured men were taken to the prison compound in buses and later transferred to the Georgia State Prison Hospital.

Forrester said all the men involved will be given misconduct reports with self-mutilation charges against them. This will go on their records.

BUT MONEY in excess of the stated goal is being placed in the C. of C. Industrial Development Fund, almost depleted by a \$20,000 allocation to the campaign which saved the Pennington operation for Washington C. H.

At noon Tuesday the \$30,000 public subscription appeal had been oversubscribed by \$2,270, and additional checks are still being received from interested citizens who either could not be contacted during the two-week campaign or who found it impossible to make their contributions during the drive period.

*The \$50,000 offered to Penning-

Red China Troops Cross into Burma

RANGOON, Burma (AP)—Several hundred armed Chinese Communist troops today were reported to have crossed Burma's wild and mountainous northeast frontier along a 500-mile arc and advanced up to 60 miles into Burma.

Reports from the border area said the Reds crossed in small bands and occupied positions in a wide arc between Putao (Fl. Hertz) at the northern tip of the country, and Kunlong Ferry, on the Salween River south of the wartime Burma Road to China.

Prime Minister Ba Swe met with Cabinet leaders and chiefs of the armed forces. The government was expected to lodge a strong protest with Peiping, with which it maintains friendly relations.

The Executive Committee of Ba Swe's party, the anti-Fascist People's Freedom League, was told there is a "threat to Burma's security."

Communist patrols have crossed the 1,000-mile, poorly defined border before but always have withdrawn after Burmese protests.

Peiping customarily blames errors of border commanders.

THE LATEST crossings, however, appeared to be in considerably greater strength than previous incursions. They also followed reports from Burmese officials in the area that Chinese army units along the border have been reinforced with regular troops in recent months.

Because of the increased Communist activity across the frontier, Burmese army troops now are being sent to the area to replace or bolster the thinly strung border police.

Red China's embassy in Rangoon had no comment on the invasion report.

One report from the area quoted Red Chinese soldiers as say-

Woman's Death Ruled Suicide

CIRCLEVILLE (AP) — Dr. Ray Carroll, Pickaway County coroner, has ruled suicide in the shotgun death of Mrs. Viola Laura Johnson, 52, of near Williamsport.

Mrs. Johnson's body was discovered Friday in a cottage she occupied with her husband, James, 46. It is located about four miles east of Williamsport in western Pickaway County. She had been shot in the head.

Bakery Drive Oversubscribed, But Money's Still Rolling In

The Chamber of Commerce drive for \$50,000 in financial assistance to assure rebuilding of Pennington Bread Inc.'s commercial bakery went over the top last Friday, but contributions are still rolling in, and donors' names are being added to the Pennington Fund list.

But money in excess of the stated goal is being placed in the C. of C. Industrial Development Fund, almost depleted by a \$20,000 allocation to the campaign which saved the Pennington operation for Washington C. H.

At noon Tuesday the \$30,000 public subscription appeal had been oversubscribed by \$2,270, and additional checks are still being received from interested citizens who either could not be contacted during the two-week campaign or who found it impossible to make their contributions during the drive period.

*The \$50,000 offered to Penning-

ing they were searching for "machitsay," a plant believed to be a powerful antidote against snakebite and opium or alcohol poisoning.

Neutral Burma has acted in a friendly, but not intimate, manner toward its big Communist neighbor.

Relations between the two states are governed in theory by the "declaration of five principles" signed by Chinese Premier Chou En-lai and former Burmese Premier U. Nu. It calls for:

Respect for each other's territorial integrity and sovereignty; nonaggression; noninterference in each other's internal affairs; equality, and mutual benefit and peaceful coexistence.

State Reform Institutions Under Fire

CINCINNATI (AP)—Oris Hamilton, director of public safety in Cincinnati, declared today that state schools in Columbus are "wilfully lacking" and called the reform school in Lancaster "almost a medieval institution."

"I'm for abolishing it," he said. "We need proper state schools."

Hamilton's criticism of state reform institutions followed the taking into custody of 18 juveniles in a series of misadventures in the last 24 hours in Cincinnati.

"The big difficulty in Ohio is that we're wilfully lacking in proper types of institutions," he said. "Teen-agers need work to keep them busy, farms to work on and technical schools."

Hamilton also said he favored spankings as a partial answer to ward stomping out juvenile hoodlums.

"I advocate the 16½-inch board of education, but not as a complete end," he declared, adding: "And the parents should absorb some of the kneelapping."

The 18 juveniles were taken into custody after a series of thefts in Greater Cincinnati ranging from five-cent newspapers to expensive automobiles.

In one automobile chase through Finneytown, police fired five shots over the heads of two teen-age boys, who finally abandoned the car and escaped on foot.

One of four other youngsters was injured when police pursued them driving another stolen car. Police said a speed of 110 miles an hour was attained at times.

Hard Diet Brings Some Discomfort

TOBATA, Japan (AP)—Passengers by found 52-year-old Gochi Kawakami lying in the street, doubled up with pain.

At Kyoritsu Hospital doctors decided his stomach was inflamed. They operated.

Inside they found: 1 piece of wire, 13 razor blades, 1 fountain pen, 1 toothbrush, 1 pencil, 1 pair of chopsticks, 1 bone from an umbrella, 21 nails and 41 other items of hardware.

Kawakami explained: "I was told at a festival they would give me a big prize if I ate hardware."

ALTHOUGH solicitations were stopped when the Pennington drive went over the top, any additional contributions will be used to replenish the Industrial Fund which is safeguarded by an advisory council of seven members and the 15 Chamber of Commerce directors.

A benefit Speedway program Aug. 8, arranged by Speedway Manager Phil Tatman, is expected to add a substantial sum to the depleted Industrial Fund.

"Apparently the momentum built up during the Pennington drive just isn't halting," one committee official pointed out Tuesday.

Diplomat Mum After His Talk

3 Western Powers Conferring in London

WASHINGTON (AP) — President Eisenhower is sending Secretary of State Dulles to London to confer with Britain and France about Egypt's seizure of the Suez Canal.

The White House announced this today shortly after the President and Dulles had discussed Egypt's nationalization of the waterway.

The United States already is represented at the London talks by Deputy Undersecretary of State Robert Murphy.

Murray Snyder, assistant White House press secretary, read this statement to newsmen:

"In view of the importance of the matters being discussed in London between Foreign Ministers Lloyd and Pineau, the President has asked Secretary Dulles personally to take part in the concluding period of their talks, in which the United States is also represented by Deputy Undersecretary Murphy."

Selwyn Lloyd is Britain's foreign minister. Christian Pineau is the French foreign minister.

DULLES SPENT an hour and one-half with Eisenhower in conference on the critical Suez situation.

After it was over, the secretary emerged tight-lipped from a side door of the White House. He brushed off a flurry of questions from reporters.

Asked how serious he thought the canal question was, Dulles only said: "I'd rather not comment on that."

In Cairo, President Gamal Abdel Nasser declared today that freedom of navigation in the Suez Canal will be guaranteed. "Both the convention of 1888 and assurances concerning it in the Anglo-Egyptian agreement of 1954 are and will be fully maintained," he said.

The convention of 1888 was the international agreement, including the Western powers, Russia, Egypt and Turkey, guaranteeing (Please Turn to Page Two)

Negotiators Work Hard on Steel Pacts

NEW YORK (AP)—The long and complicated job of drawing up nearly two-score work contracts in the steel industry continued today as 650,000 striking employees were poised to return to work.

Some company union spokesmen said they hoped that all the separate contracts between steel companies and the United Steelworkers could be completed by Thursday.

However, a spokesman for U. S. Steel, the nation's largest steel producer and the traditional pattern-setter in the industry, said the contract drafting "could go on all week."

The spokesman said he had been in contact with negotiators for several other companies and there appeared to be "no major hitches" in sight.

Agreement to end the month-old nationwide strike was reached by negotiators here last Friday.

The back-to-work movement has already started.

About 1,000 of the 3,300 employees of the Lukens Steel Corp. at Coatesville, Pa., resumed work yesterday. Company and union representatives had completed work on their contract at Coatesville Sunday night. The local union membership ratified the contract yesterday, giving the signal for immediate resumption of work.

Warren Countian Faces Pen Term

RIVERHEAD, N. Y. (AP)—Shafter Roberts, 23, of near Mason, Ohio, was convicted today on charges of second degree manslaughter and grand larceny in the beating death of a Long Island man.

A Suffolk County jury brought in the verdict at 2:45 a. m. before Judge Fred J. Munder. Roberts will be sentenced Sept. 12.

He was indicted on a charge of murder in addition to manslaughter in the death of Sigmund Majewski, 64, of Huntington, N. Y., and the jury decided on the lesser charge Roberts' wife, Arlene, 19, Cincinnati, testified against him.

The Weather

A previous trial in Baltimore ended in a jury disagreement.

Although Dellipizzi was indicted on a murder charge, the prosecution last night requested a manslaughter verdict.

Dellipizzi testified that Charlotte Holland, formerly of Huntington, W. Va., then his fiancée and now his wife, told him Wick had made improper advances toward her in the night club where she worked as a tap dancer.

Mrs. Dellipizzi said Dr. Wick, in Baltimore on a business trip for Bethlehem Steel Co., refused to let her remain alone.

More Polio Shots Available in Ohio

COLUMBUS (AP) — Ohio Children 1-through-19 and expectant mothers today became eligible for their second shot of anti-polio vaccine.

The state health department said recent increases in the supply of the vaccine made the move possible. Previously, the group had been restricted to one inoculation.

The department added that 222,200 CCs of the vaccine recently allocated to Ohio were released to regular commercial channels.

The announcement came with a report that the total number of cases reported this year is 101, compared to 256 last year.

Official Motto: 'In God We Trust'

GETTYSBURG, Pa. (AP) — The official motto of the United States now is "In God We Trust."

A congressional resolution making that phrase the national motto was signed yesterday by President Eisenhower.

Bobo Involved In New Hassle

Rockefeller Ex-Wife Arrested by Sheriff

LITTLE ROCK, Ark. (AP)—A famous domestic battle flared in a new setting yesterday, disturbing the peace of Winthrop Rockefeller's pastoral palace atop Petit Jean Mountain near here.

Rockefeller himself played no visible role in the latest hassle.

When the dust cleared, Mrs. Barbara (Bobo) Rockefeller, her attorney and two friends were arrested by Sheriff Marlin Hawkins of the nearby town of Morrilton amid a welter of claims.

The blonde ex-wife of the oil millionaire claimed she had gone from New York City to Winrock Farm after receiving a telephone call from her 8-year-old son Winnie's nurse, who had taken the boy for a regular visit to his father under a court agreement when the Rockefellers were divorced in 1954.

Bobo said the nurse told her that she was "forcibly removed" from Winrock Farm after she took the boy there Saturday.

Bobo responded by making a flying trip to Arkansas.

Gene Smith, a Rockefeller employee, and "several big men" met Bobo and her party at the gate.

BOBO SAID SHE saw her son swimming in a pool, called to him and then took him to her car. She said Smith grabbed the car keys while she tried to push him away. Then, she said, "Smith pulled me out, picked me up and threw me about 10 feet. I landed on the hard gravel road."

Towards evening, Bobo said, the sheriff arrived and ordered Bobo and her party to go with them to the Morrilton police station for "disturbing the peace."

Sheriff Hawkins said of Bobo and her companions that "they were very rude. I never dealt with people as rude as they on a minor charge."

36 Rock Quarry Prisoners Break Own Legs in Protest

BUFORD, Ga. (AP) — Thirty-six prisoners broke their own legs with 10-pound sledge hammers yesterday in protest against working conditions at Rock Quarry State Prison, the "Little Alcatraz" of the Georgia penal system.

Jack Forrester, state director of corrections, said a prison doctor told him 29 white and seven Negro inmates shattered bones in their legs during an afternoon rest period at a rock quarry where they were working half a mile from the prison.

He said the men placed their legs on rocks and "started whacking away" with the sledge hammers normally used to crush rock at the 34-acre quarry. There were no cries of pain, he said.

Guards watching the 189 prisoners in the fenced-in quarry were taking a rest at the time and said they did not notice what had happened until they ordered the men back to work.

Warden Hubert Smith said the injured men told him after the incident that they felt their wheelbarrows were too heavily loaded and the sun was too hot. Temperatures were in the low 90s at the time.

Rock Quarry prison was built in 1949. Forrester said it was used to house incorrigible prisoners and that men had to handle were sent there from other prisons.

Smith said that prisoners work from 6 a. m. to 6 p. m. with half-hour breaks in the morning and afternoon, and a two-hour lunch break at noon.

The prison at Buford is in the north Georgia hills about 40 miles northeast of Atlanta.

The injured men were taken to the prison compound in buses and later transferred to the Georgia State Prison Hospital.

Forrester said all the men involved will be given misconduct reports with self-mutilation charges against them. This will go on their records.

Ike Leaves Farm

WASHINGTON (AP) — President Eisenhower flew back from a long weekend at his Gettysburg, Pa., farm today and went into conference immediately with Secretary of State Dulles on the Suez Canal crisis.

Red China Troops Cross into Burma

RANGOON, Burma (AP)—Several hundred armed Chinese Communist troops today were reported to have crossed Burma's wild and mountainous northeast frontier along a 500-mile arc and advanced up to 60 miles into Burma.

Reports from the border area said the Reds crossed in small bands and occupied positions in a wide arc between Putao (Ft. Hertz) at the northern tip of the country, and Kunlong Ferry, on the Salween River south of the wartime Burma Road to China.

Prime Minister Ba Swe met with Cabinet leaders and chiefs of the armed forces. The government was expected to lodge a strong protest with Peiping, with which it maintains friendly relations.

The Executive Committee of Ba Swe's party, the anti-Fascist People's Freedom League, was told there is a "threat to Burma's security."

Communist patrols have crossed the 1,000-mile, poorly defined border before but always have withdrawn after Burmese protests.

Peiping customarily blames errors of border commanders.

THE LATEST crossings, however, appeared to be in considerably greater strength than previous incursions. They also followed reports from Burmese officials in the area that Chinese army units along the border have been reinforced with regular troops in recent months.

Because of the increased Communist activity across the frontier, Burmese army troops now are being sent to the area to replace or bolster the thinly strung border police.

Red China's embassy in Rangoon had no comment on the invasion report.

One report from the area quoted Red Chinese soldiers as say-

ing they were searching for "machitsay," a plant believed to be a powerful antidote against snakebite and opium or alcohol poisoning.

Neutral Burma has acted in a friendly, but not intimate, manner toward its big Communist neighbor.

Relations between the two states are governed in theory by the "declaration of five principles" signed by Chinese Premier Chou En-lai and former Burmese Premier U. Nu. It calls for:

Respect for each other's territorial integrity and sovereignty; nonaggression; noninterference in each other's internal affairs; equality, and mutual benefit and peaceful coexistence.

State Reform Institutions Under Fire

CINCINNATI (AP)—Oris Hamilton, director of public safety in Cincinnati, declared today that state schools in Columbus are "wilfully lacking" and called the reform school in Lancaster "almost a medieval institution."

"I'm for abolishing it," he said. "We need proper state schools."

Hamilton's criticism of state reform institutions followed the taking into custody of 18 juveniles in a series of misadventures in the last 24 hours in Cincinnati.

"The big difficulty in Ohio is that we're wilfully lacking in proper types of institutions," he said. "Teen-agers need work to keep them busy, farms to work on and technical schools."

Hamilton also said he favored spankings as a partial answer toward stamping out juvenile hoodlumism.

"I advocate the 1½-inch board of education, but not as a complete end," he declared, adding: "And the parents should absorb some of the kneelapping."

The 18 juveniles were taken into custody after a series of thefts in Greater Cincinnati ranging from five-cent newspapers to expensive automobiles.

In one automobile chase through Finneytown, police fired five shots over the heads of two teen-age boys, who finally abandoned the car and escaped on foot.

One of four other youngsters was injured when police pursued them driving another stolen car. Police said a speed of 110 miles an hour was attained at times.

Hard Diet Brings Some Discomfort

TOBATA, Japan (AP)—Passers-by found 52-year-old Gochi Kawakami lying in the street, doubled up with pain.

At Kyoritsu Hospital doctors decided his stomach was inflamed. They operated.

Inside they found: 1 piece of wire, 13 razor blades, 1 fountain pen, 1 toothbrush, 1 pencil, 1 pair of chopsticks, 1 bone from an umbrella, 21 nails and 41 other items of hardware.

Kawakami explained: "I was told at a festival they would give me a big prize if I ate hardware."

Bakery Drive Oversubscribed, But Money's Still Rolling In

The Chamber of Commerce drive for \$50,000 in financial assistance to assure rebuilding of Pennington Bread Inc.'s commercial bakery went over the top last Friday, but contributions are still rolling in, and donors' names are being added to the Pennington Fund list.

But money in excess of the stated goal is being placed in the C. of C. Industrial Development Fund, almost depleted by a \$20,000 allocation to the campaign which saved the Pennington operation for Washington C. H.

At noon Tuesday the \$30,000 public subscription appeal had been oversubscribed by \$2,270, and additional checks are still being received from interested citizens who either could not be contacted during the two-week campaign or who found it impossible to make their contributions during the drive period.

The \$50,000 offered to Penning-

ton by the Chamber of Commerce included the \$20,000 remaining in the Industrial Fund which was designed to attract new industries to the city and to assist with the expansion of present industries.

ALTHOUGH solicitations were stopped when the Pennington drive went over the top, any additional contributions will be used to replenish the Industrial Fund which is safeguarded by an advisory council of seven members and the 15 Chamber of Commerce directors.

A benefit Speedway program Aug. 8, arranged by Speedway Manager Phil Tatman, is expected to add a substantial sum to the depleted Industrial Fund.

"Apparently the momentum built up during the Pennington drive just isn't halting," one committee official pointed out Tuesday.

Diplomat Mum After His Talk

3 Western Powers Conferring in London

WASHINGTON (AP) — President Eisenhower is sending Secretary of State Dulles to London to confer with Britain and France about Egypt's seizure of the Suez Canal.

The White House announced this today shortly after the President and Dulles had discussed Egypt's nationalization of the waterway.

The United States already is represented at the London talks by Deputy Undersecretary of State Robert Murphy.

Murray Snyder, assistant White House press secretary, read this statement to newsmen:

"In view of the importance of the matters being discussed in London between Foreign Ministers Lloyd and Pineau, the President has asked Secretary Dulles personally to take part in the concluding period of their talks, in which the United States is also represented by Deputy Undersecretary Murphy."

Selwyn Lloyd is Britain's foreign minister. Christian Pineau is the French foreign minister.

DULLES SPENT an hour and one-half with Eisenhower in conference on the critical Suez situation.

After it was over, the secretary emerged tight-lipped from a side door of the White House. He brushed off a flurry of questions from reporters.

Asked how serious he thought the canal question was, Dulles only said: "I'd rather not comment on that."

In Cairo, President Gamal Abdel Nasser declared today that freedom of navigation in the Suez Canal will be guaranteed. "Both the convention of 1888 and assurances concerning it in the Anglo-Egyptian agreement of 1954 are and will be fully maintained," he said.

The convention of 1888 was the international agreement, including the Western powers, Russia, Egypt and Turkey, guaranteeing freedom of navigation.

Negotiators Work Hard on Steel Pacts

NEW YORK (AP)—The long and complicated job of drawing up nearly two-score work contracts in the steel industry continued today as 650,000 striking employees were poised to return to work.

Some company union spokesmen said they hoped that all the separate contracts between steel companies and the United Steelworkers could be completed by Thursday.

However, a spokesman for U. S. Steel, the nation's largest steel producer and the traditional pattern-setter in the industry, said the contract drafting "could go on all week."

The spokesman said he had been in contact with negotiators for several other companies and there appeared to be "no major hitches" in sight.

Agreement to end the month-old nationwide strike was reached by negotiators here last Friday.

The back-to-work movement has already started.

About 1,000 of the 5,300 employees of the Lukens Steel Corp. at Coatesville, Pa., resumed work yesterday. Company and union representatives had completed work on their contract at Coatesville Sunday night. The local union membership ratified the contract yesterday, giving the signal for immediate resumption of work.

Warren Countian Faces Pen Term

RIVERHEAD, N. Y. (AP)—Shafter Roberts, 23, of near Mason, Ohio, was convicted today on charges of second degree manslaughter and grand larceny in the beating death of a Long Island man.

A Suffolk County jury brought in the verdict at 2:45 a. m. before Judge Fred J. Munder. Roberts will be sentenced Sept. 12.

He was indicted on a charge of murder in addition to manslaughter in the death of Sigmund Majewski, 64, of Huntington, N. Y., and the jury decided on the lesser charge Roberts' wife, Arlene, 19, Cincinnati, testified against him.

Health Department Here Studied by Iran Doctor

The Fayette County Health Department was complimented today by a visit from Dr. Ebrahim L. Saadat of Teheran, Iran, who was referred to this health district by the Ohio Department of Health, for a study of methods in public health organization.

Dr. Saadat was directed to spend some time with Dr. Benton V. D. Scott, health commissioner for the district composed of counties of Fayette, Ross, Pike and the city of Chillicothe, to observe the methods used in organization work in public health.

Aside from his visit to the state department, this is the only health district in Ohio he is expected to visit. He will inspect the Ross and Pike county health setups with Dr. Scott before leaving Ohio.

THE VISITOR is public health physician and acting chief of the quarantine section of his country's Public Health Cooperation Organization.

He came to this country 11 months ago and completed a course at Yale University, starting last September, which gave him a master's degree in public health administration. The remaining month of his year's stay is being used in traveling through this country to visit as many cities as possible to inspect their public health organization methods.

Upon his return to his homeland he is to assume the responsibility for organization and administration of a sound public health program for Iran.

DR. SAADAT who is 44 years old, is a very alert, interesting and intelligent professional man, who is taking his responsibilities seriously.

He has traveled all over Europe but declared he considers this country outstanding in its approach to public health problems.

He said he is greatly enjoying his visit here and feels that he has profited greatly by the time he has been able to give for study and inspections of this nation's health activities.

Don't Make 'em Like They Used To

VANCEBURG, Ky. (P)—Those good old days when an elephant could do the job are gone.

A tractor-trailer truck of a circus caravan got stuck in a ditch near here.

Motorists, their way blocked by the truck, watched expectantly as a circus elephant was paraded to the scene.

The pachyderm huffed and puffed but couldn't budge the truck. Finally, a couple of wreckers arrived to do the job.

Marine Chief To Testify At Hearing

PARRIS ISLAND, S.C. (P)—Sgt. Matthew C. McKeon testified today that as a Marine recruit in 1948 he was marched into marshes by his drill instructor "on several occasions."

The tall, ramrod straight McKeon testified in his own defense on charges of involuntary manslaughter and oppression of recruits as a result of his marching a recruit platoon into Ribbon Creek at the cost of six lives.

During the brief morning recess in the court-martial, the defense announced it had called the Marine commandant, Gen. Randolph McC. Pate, as a witness.

Previously, Gen. Pate had figured in the case with the disclosure of his May 1 statement concerning the "commandant's policy governing training of recruits."

In that statement Gen. Pate said he had been shocked by previous training practices in the Marine Corps and announced, in substance, a real shakeup in training methods.

Part of McKeon's defense is that when he led 74 recruits into the tide-swept waters of Ribbon Creek last April 8, where six drowned, he was only following accepted training methods.

Just before the announcement, McKeon's psychiatric record was put into evidence to show he was "unusually stable and well-integrated."

Further, a witness from the Drill Instructors' School said the onetime drill instructor was an above-average student.

Old Vet Holds On

DULUTH, Minn. (P)—Albert Woolson, 109, sole Union Army survivor of the Civil War, still was on the critical list today at St. Luke's Hospital here.

Fall Kills Farmer

"IT'S SO EASY TO PLACE A WANT AD."

But Respite Only Temporary

Deaf-Mute Problem Boy To Go to State Bureau

The 14-year-old deaf-mute boy, who was picked up June 18 and charged with the theft of several automobiles and guns, is going to be taken to the state Division of Juvenile Research Thursday. But, his stay there is to be only "temporary."

Thus, Sheriff Orland Hays and Judge Robert L. Brubaker of the Probate Court, will get a respite from one of their most perplexing and aggravating problems, respite from problems that have plagued them for six weeks.

The state officials' agreement to take him back—he has been there before—on a "temporary" basis, however, gives Sheriff Hays and Judge Brubaker but slight encouragement.

Describing the boy as a "problem," they both have said many times that there are no facilities in Fayette County for handling such an unusual case. They have said, too, that their troubles have been complicated because state officials have insisted the state has no institution in which he can be given the "specialized treatment" they say he should have.

HIS CASE is unusual, Judge Brubaker explained, because of his physical handicaps, his age and his disregard for laws.

Sheriff Hays was in Columbus Monday discussing the situation with officials of the Division of Juvenile Research. The outcome was the agreement to take the boy back to the bureau in Columbus "temporarily."

Neither the sheriff nor Judge Brubaker was optimistic over the future. Judge Brubaker said he expected him back after three or four months—and that "we will have to start all over again."

He recalled that, after the boy had been there previously, the Bureau of Juvenile Research had sent word back here that he needed specialized treatment. Then he added "but they refuse to do anything about it and we do not have the facilities here."

"To take him there now, will give us a breathing spell, but it is no solution," he declared.

JUDGE BRUBAKER, after wrestling with the problems, said he had planned to file a mandamus action in a legal move to force the state to take charge of the boy on a permanent basis and give him the specialized training juvenile authorities have said he needs.

When, and if, the state authorities send him back, Judge Brubaker said "there's nothing left for us to do but file the mandamus action to try to get this thing settled once and for all."

Judge Brubaker said one of the things that alarms him is the boy's "affinity for guns." He remarked in this connection that Sheriff Hays had told him he was certain the boy had stolen at least six guns during his last escapade, but that only three had been found. He added the boy must know where they are and is "completely uninhibited when he is frustrated."

He implied, by that statement, that he was afraid the boy might use the guns if released from custody before the "specialized treatment" rehabilitates him.

"Jail is no place for him," Judge Brubaker said and expressed doubt that the six months he has spent in the Fayette County jail had helped him.

Sheriff Hays placed him in a special cell in the women's ward where he is away from all other prisoners. But even here he was a problem— he dug through the wall July 21 and was finally found hidden in the attic.

The boy's name has been withheld because of his age.

Roman Math Ways All Greek to Us

ST. LOUIS, Mo.—The Romans—builders of fine roads, graceful buildings and lasting empires—did their math in a tricky manner.

A description of what they considered mathematical shortcuts has been found among the 600,000 microfilm copies of Vatican library manuscripts at St. Louis University here.

For example, one shortcut involved multiplying VIII (8) by VI (6). Doing it the Roman way, you take the difference between 10 and the multiplier (6) and subtract it from the number to be multiplied (8) leaving 4. This difference was multiplied by 10, giving 40.

Next, the "differentia" of both the multiplier and the multiplicand were found. This gives you the numbers 4 and 2, which if multiplied, become 8. Add the 8 to the 40 and the answer: 48 or XLVIII.

Tired Auto

Ike To Send Dulles To Parley

(Continued from Page One)
The freedom of movement of all ships through the canal in war or peace. The Anglo-Egyptian agreement of 1954 provided for the evacuation of British troops from the canal zone with the right to return in five years in case of a world war.

Meanwhile, some British warship crews on leave in English ports were reported recalled for readiness in case of a show of force is ordered in the Suez crisis.

The Admiralty declined to confirm the report, which developed as British, French and American diplomatic leaders worked to build up steam behind the idea of an international control body to guarantee free movement of ships through the canal taken over by Egypt last week.

An Admiralty spokesman, asked about activity involving the aircraft carrier Ocean at Devonport, said "certain naval moves are being ordered."

Fresh talks developed between British and American naval authorities at Malta, the central Mediterranean naval base of British and Allied forces. Rear Admiral mine forces of the U. S. Atlantic Fleet, arrived there by plane for two days of conferences.

The international control plan under discussion by representatives of the Western Big three in London, however, is authoritative reported to keep military measures in the background out of deference to American caution in the situation.

ONE MAJOR problem was whether Egyptian President Gamal Abdel Nasser would go along with such a proposal. Another was what part the Russians would demand in any control group.

Nasser kicked up an international storm Thursday when he announced Egypt had nationalized the key waterway, operated by a French-British company under a concession which had until 1968 to run. Russia applauded the Egyptian action.

Western experts could come up with no grounds for a legal challenge of the nationalization decree. Nasser said he would pay off the stockholders in the canal company at the market rate on Thursday. The British government

is the biggest holder with 44 per cent of the shares.

Prime Minister Eden told a cheering House of Commons yesterday Britain would refuse to accept Egypt's "unfettered" control of the canal.

The Prime Minister did not detail specific measures of blocking sole Egyptian control. Informants said the Western Big Three, up to this time, have not discussed the use of military force.

Consideration of force would not arise, a British source said, unless Egypt took aggressive action against world shipping or refused to accept any international supervisory arrangements for the canal operation.

He Has To Be Shown

MEMPHIS, Tenn. (P)—Little Micky Arledge, who is 4, is a lad who has to be shown.

When he saw a dog the other day he cried to his mother, Mrs. Flora Arledge:

"Look at that big ole hound dog!"

"That's not a hound, Micky," said his mother. "It's a bird dog." Micky eyed her skeptically. "Lemme see him fly," he said.

Go outside and look at your house RIGHT NOW!

Part of McKeon's defense is that when he led 74 recruits into the tide-swept waters of Ribbon Creek last April 8, where six drowned, he was only following accepted training methods.

Just before the announcement, McKeon's psychiatric record was put into evidence to show he was "unusually stable and well-integrated."

Further, a witness from the Drill Instructors' School said the onetime drill instructor was an above-average student.

Old Vet Holds On

DULUTH, Minn. (P)—Albert Woolson, 109, sole Union Army survivor of the Civil War, still was on the critical list today at St. Luke's Hospital here.

Fall Kills Farmer

YOUNGSTOWN (P)—Farmer John V. Popa, 75, fell three feet from a hay wagon last night, fractured his neck and died.

Blessed Events

Mr. and Mrs. Edwin Rumer, 924 S. Hinde St., are announcing the birth of a daughter weighing 7 pounds, 3 ounces at 7:03 p. m. Monday in Memorial Hospital.

"IT'S SO EASY TO PLACE A WANT AD."

But Respite Only Temporary

Deaf-Mute Problem Boy To Go to State Bureau

The 14-year-old deaf-mute boy, who was picked up June 18 and charged with the theft of several automobiles and guns, is going to be taken to the state Division of Juvenile Research Thursday. But, his stay there is to be only "temporary."

Thus, Sheriff Orland Hays and Judge Robert L. Brubaker of the Probate Court, will get a respite from one of their most perplexing and aggravating problems, respite from problems that have plagued them for six weeks.

The state officials' agreement to take him back—he has been there before—on a "temporary" basis, however, gives Sheriff Hays and Judge Brubaker but slight encouragement.

Describing the boy as a "problem," they both have said many times that there are no facilities in Fayette County for handling such an unusual case. They have said, too, that their troubles have been complicated because state officials have insisted the state has no institution in which he can be given the "specialized treatment" they say he should have.

HIS CASE is unusual, Judge Brubaker explained, because of his physical handicaps, his age and his disregard for laws.

Sheriff Hays was in Columbus Monday discussing the situation with officials of the Division of Juvenile Research. The outcome was the agreement to take the boy back to the bureau in Columbus "temporarily."

Neither the sheriff nor Judge Brubaker was optimistic over the future. Judge Brubaker said he expected him back after three or four months—and that "we will have to start all over again." He recalled that, after the boy had been there previously, the Bureau of Juvenile Research had sent word back here that he needed specialized treatment. Then he added "but they refuse to do anything about it and we do not have the facilities here."

"To take him there now, will give us a breathing spell, but it is no solution," he declared.

JUDGE BRUBAKER, after wrestling with the problems, said he had planned to file a mandamus action in a legal move to force the state to take charge of the boy on a permanent basis and give him the specialized training juvenile authorities have said he needs.

When, and if, the state authorities send him back, Judge Brubaker said "there's nothing left for us to do but file the mandamus action to try to get this thing settled once and for all."

Judge Brubaker said one of the things that alarms him is the boy's "affinity for guns." He remarked in this connection that Sheriff Hays had told him he was certain the boy had stolen at least six guns during his last escapade, but that only three had been found.

He added the boy must know where they are and is "completely uninhibited when he is frustrated." He implied, by that statement, that he was afraid the boy might use the guns if released from custody before the "specialized treatment" rehabilitates him.

"Jail is no place for him," Judge Brubaker said and expressed doubt that the six months he has spent in the Fayette County jail had helped him.

Sheriff Hays placed him in a special cell in the women's ward where he is away from all other prisoners. But even here he was a problem—he dug through the wall July 21 and was finally found hidden in the attic.

The boy's name has been withheld because of his age.

Roman Math Ways All Greek to Us

ST. LOUIS, (P)—The Romans—builders of fine roads, graceful buildings and lasting empires—did their math in a tricky manner.

A description of what they considered mathematical shortcuts has been found among the 600,000 microfilm copies of Vatican library manuscripts at St. Louis University here.

For example, one shortcut involved multiplying VIII (8) by VI (6). Doing it the Roman way, you take the difference between 10 and the multiplier (6) and subtract it from the number to be multiplied (8) leaving 4. This difference was multiplied by 10, giving 40.

Next, the "differentia" of both the multiplier and the multiplicand were found. This gives you the numbers 4 and 2, which if multiplied, become 8. Add the 8 to the 40 and the answer: 48 or XLVIII.

Tired Auto

SAN ANTONIO, Tex. (P)—Sign on the rear of an obviously not-so-new auto: "Shot Rod."

Ike To Send Dulles To Parley

(Continued from Page One)
The freedom of movement of all ships through the canal in war or peace. The Anglo-Egyptian agreement of 1954 provided for the evacuation of British troops from the canal zone with the right to return in five years in case of a world war.

Meanwhile, some British warship crews on leave in English ports were reported recalled for readiness in case of a show of force is ordered in the Suez crisis.

The Admiralty declined to confirm the report, which developed as British, French and American diplomatic leaders worked to build up steam behind the idea of an international control body to guarantee free movement of ships through the canal taken over by Egypt last week.

An Admiralty spokesman, asked about activity involving the aircraft carrier Ocean at Devonport, said "certain naval moves are being ordered."

Fresh talks developed between British and American naval authorities at Malta, the central Mediterranean naval base of British and Allied forces. Rear Admiral forces of the U. S. Atlantic Fleet, arrived there by plane for two days of conferences.

The international control plan under discussion by representatives of the Western Big three in London, however, is authoritatively reported to keep military measures in the background out of deference to American caution in the situation.

ONE MAJOR problem was whether Egyptian President Gamal Abdel Nasser would go along with such a proposal. Another was what part the Russians would demand in any control group.

Nasser kicked up an international storm Thursday when he announced Egypt had nationalized the key waterway, operated by a French-British company under a concession which had until 1968 to run. Russia applauded the Egyptian action.

Western experts could come up with no grounds for a legal challenge of the nationalization decree. Nasser said he would pay off the stockholders in the canal company at the market rate on Thursday. The British government

is the biggest holder with 44 per cent of the shares.

Prime Minister Eden told a cheering House of Commons yesterday Britain would refuse to accept Egypt's "unfettered" control of the canal.

The Prime Minister did not detail specific measures of blocking sole Egyptian control. Informants said the Western Big Three, up to this time, have not discussed the use of military force.

Consideration of force would not arise, a British source said, unless Egypt took aggressive action against world shipping or refused to accept any international supervisory arrangements for the canal operation.

He Has To Be Shown

MEMPHIS, Tenn. (P)—Little Micky Arledge, who is 4, is a lad who has to be shown.

When he saw a dog the other day he cried to his mother, Mrs. Flora Arledge: "Look at that big ole hound dog!"

"That's not a hound, Micky," said his mother. "It's a bird dog."

Micky eyed her skeptically. "Lemme see him fly," he said.

Go outside and look at your house RIGHT NOW!

"Mary Haworth's Mail"

DEAR MARY HAWORTH: We are three men in our upper fifties, who have given more than 25 years' service to our employer. We are what is generally known as "white collar" employees, having no affiliation with a labor union. All other employees of our organization belong to a union.

We haven't been able to convince our employer that costs of the necessities of life have risen to a point where we, too, should be given a pay increase, along with union workers, to meet the rise in living costs.

Individually we have approached our employer on this subject, but the invariable reply is: "If you aren't satisfied, you know what you can do." He knows that it is almost impossible, at our age, to get another position paying the same wage; and we also know that.

The union workers get their periodic pay increases, in addition to pension, health and welfare insurance benefits that are paid for by the company. We realize how unfair our employer is; but even so, what can we do? We are trapped.

D. S.

DEAR D. S.: My first reaction to your letter is to wonder why you aren't affiliated with a labor union.

ion, if you are suffering for lack of effective bargaining power.

If you aren't management, nor a representative of management in dealing with labor in your outfit, then you come under the heading of labor, I should think. Perhaps you ought to explore the possibilities of joining forces with organized labor, to get the help of union backing.

To fathom your situation, I've talked with spokesmen for both camps, namely, management and labor.

The spokesman for management, a fair-minded fellow who negotiates wage rates for a big interstate commerce enterprise, says that the mere fact of your being white collar workers doesn't deny you the right to unionize. Only if you are supervisory personnel, or if you hold a confidential managerial position, would you be disqualified for union membership.

In the city through which you write, there is a local office of the National Labor Relations Board; and the management man says: "go there for advice on how to cope with your employer's attitude." Further, he says that any employer who would punish you for taking such a step "ought to have his head examined."

M. H.

Mary Haworth counsels through her column and not by mail or personal interview. Write to her in care of this newspaper.

Court Order 'Stop Dead' Pinball Fight

COLUMBUS, Ohio (AP) — State Liquor Director William C. Bryant says his department still is "stopped dead" in its fight to eliminate pinball machines from taverns.

A Franklin County Common Pleas Court order restraining Liquor Department agents from seizing establishments was modified Monday and Assistant Atty. Gen. Kiener Johnson said modification of the order means that agents now will be able to pick up pinball machines which offer a free play, a replay or any other type of reward.

But Bryant, in scheduling a meeting today of department officials, said he did not think the entry filed Monday by Judge Robert E. Leach would help the department much in its war against pinball machines.

The department still is restrained from taking any action, said Bryant, unless "we actually observe the machines being used for gambling purposes."

The liquor director added: "The problem is that there are 21,000 permit establishments in Ohio, and we don't have men to observe them and obtain the kind of evidence which would be required under this order."

Bryant said he had hoped the court order modifying a restraining order issued Feb. 17, 1954, by the late Judge Joseph M. Clifford, would have declared all pinball machines illegal per se.

A recent Ohio Supreme Court decision ruled that pinball machines which pay off in free games are illegal.

Ortiz Chalks Up Split Decision

NEW YORK (AP)—Unbeaten Carlos Ortiz has a string of 16 victories to his credit today but it may be sometime before this flashy New York lightweight gets a chance to try for No. 17.

Ortiz, who went into the ring here last night a 14-5 favorite to whip Cleveland's Tommy Salem needed seven stitches to close a cut over his left eye after emerging from the fight with a split decision.

Referee Ray Miller and Judge Joe Eppy had Ortiz winning by respective scores of 6-3-1 and 5-4-1 but Judge Artie Aidala saw Salem in front by 5-4-1.

Edwards AF Base, Calif. — Checking the brakes on a F-86E Pacer, after flight, are (left to right) S-Sgt. Dennis Mickie, son of Mr. and Mrs. H. C. Mickie of Washington C. Dem Leaders Talk Party's Platform

COLUMBUS, Ohio (AP)—Some 75 Democratic nominees for state offices met in Columbus Monday to discuss planks in the party's platform this fall, and their suggestions ranged from "no new taxes" to movie censorship.

Michael V. DiSalle, Democratic candidate for governor, reviewed what he considered the major governmental problems facing Ohio and asserted that the state could meet its needs without new taxes in the next two years.

DiSalle also said there should be laws to ban racial discrimination, and to limit election campaign contributions. He said the Republicans were raising a five million dollar campaign fund in Ohio.

Some other suggestions for

planks in the party's platform:

Rep. Francis D. Sullivan, Cleveland—legalization of supplemental unemployment benefit plans such as those adopted by the automobile industry, so that unemployed workers can collect both state and industry unemployment benefits;

Rep. Jesse Yoder, Dayton—Compulsory automobile accident insurance and restoration of movie censorship;

Sen. Joseph W. Bartunek, Cleveland—changes in the laws on tax classification of real and personal property.

Sen. Joseph Avellone, Cleveland—legislative reapportionment.

Other nominees urged voting rights for 18-year-olds and curbs on juvenile delinquency.

Democratic State Chairman William L. Coleman of Marysville said a Platform Committee would study the suggestions.

Out of 153 major air force bases, 27 are located in Texas.

Ontario's motor vehicle registrations exceed 1,500,000 annually.

Only Death Able To Curtail Gritty Boy's Desire To Win

VALPARAISO, Ind. (AP)—Doug Hoback won't be in the starting lineup of the annual Soap Box Derby at Akron, Ohio, Aug. 12.

Lung cancer killed the 13-year-old youth and also the dream of his lifetime.

Death came Sunday in a Valparaiso hospital, just 24 hours after he had failed to qualify for the Akron race in regional finals at Gary, Ind.

Hoback's racer veered into a curb and put him out of the race. He watched the remainder of the race from a wheelchair after treatment for minor injuries.

A day later his cancer condition took a turn for the worse and he was taken to the hospital where he died.

But, in death unfolded the story of young Doug's courage and determination to win the soap box event, the dream he treasured more than anything else since learning he had little time to live.

"I'll tell you what kind of boy Doug was," said his doctor Monday.

"The night before the regional soap box race in Gary, he had his mother call me up so that he could have a blood transfusion and get pepped up for the race. But, I just couldn't do that," said Dr. Leonard Green, a Valparaiso physician.

"He was a hopeless case from the beginning — since last December — when we found he had lymphosarcoma, or an incurable malignancy. But, he had lots of will and plenty of stamina."

Still, Doug had qualified on July 4 as Class A soap box champ of Valparaiso, a northwestern Indiana community of 15,000.

"He never gave up," Green said. "All we could do medically was to postpone his death. He even lost about 40 pounds from his normal weight of 110 pounds since his illness started."

His parents? "They went along with him. All the way with him," the doctor said. Doug's father, Neil Hoback, 44, is a special grinder at a Valparaiso steel company that produces magnets.

"My son never gave up," Hoback said. "He wanted to race. He was a very religious boy and prayed."

"Sure he had been in the hospital four times in the last six months and the boy subsisted solely on fruit juices for the last

two weeks. But, he wanted to race."

In the regional finals at Gary Saturday, Doug was so weak he had to be lifted in and out of his racer. In a time trial run, the boy wrecked his brown racer when the axle broke and it veered against a curb.

James A. Garfield, 20th President of the United States, was left-handed.

It requires from 12 to 15 years to teach a novice the mysteries of tapestry-weaving.

Only \$9,911 Tax Delinquency In Fayette County This Year

When Treasurer Charles A. Fabb turned the books over to Auditor Harry Allen only \$9,911.52 of the \$903,301.90 due this year in taxes on Fayette County real estate was unpaid.

This was a little less than the \$10,216.70 delinquency after last year's collections. But last year, the total tax charge of \$913,904.96 was a little more than this year.

Fabb said he had not yet had time to analyze the delinquency after this year's two collections (for 1955 taxes), but expresses the belief that most of it was in relatively small amounts and spread over a good many pieces of property in the city, the villages and the rural farm area.

Of the total to be collected this year, \$634,592.03 was paid during the first collection period and \$258,788.35 during the last payment period. That meant that many property owners paid for the full year during the first collection period, the treasurer pointed out.

THE RATIO of payments at the two collection periods last year was about the same, he said —

\$644,663.55 during the first one and \$259,024.71 during the second.

There was one difference, he noted: taxes were slower coming in this year than the year before.

With only about a week to go before the book would be closed, and nearly \$100,000 still due, Fabb said he started notifying by letter and telephone those who had not paid their taxes that they would be subject to an automatic 10 per cent penalty unless they got their checks in. That led to a flood of mail the last few days before the deadline, he said and added that "while nobody, apparently, likes to pay taxes, most of those who were

slow either had forgotten to make their payments or were waiting to get some money." To back that up, he said most of them expressed their appreciation for being reminded.

Fabb also noted a change in tax-paying habits in Fayette County. Long lines of property owners waiting to pay their taxes in person at the office are dwindling and in their place come stacks of check-bearing mail.

Only \$9,911 Tax Delinquency In Fayette County This Year

When Treasurer Charles A. Fabb turned the books over to Auditor Harry Allen only \$9,911.52 of the \$903,301.90 due this year in taxes on Fayette County real estate was unpaid.

This was a little less than the \$10,216.70 delinquency after last year's collections. But last year, the total tax charge of \$913,904.96 was a little more than this year.

Fabb said he had not yet had time to analyze the delinquency after this year's two collections (for 1955 taxes), but expresses the belief that most of it was in relatively small amounts and spread over a good many pieces of property in the city, the villages and the rural farm area.

Of the total to be collected this year, \$634,592.03 was paid during the first collection period and \$258,798.35 during the last payment period. That meant that many property owners paid for the full year during the first collection period, the treasurer pointed out.

\$644,663.55 during the first one and \$259,024.71 during the second.

There was one difference, he noted: taxes were slower coming in this year than the year before.

With only about a week to go before the book would be closed, and nearly \$100,000 still due, Fabb said he started notifying by letter and telephone those who had not paid their taxes that they would be subject to an automatic 10 per cent penalty unless they got their checks in. That led to a flood of mail the last few days before the deadline, he said and added that "while nobody, apparently, likes to pay taxes, most of those who were slow either had forgotten to make their payments or were waiting to get some money." To back that up, he said most of them expressed their appreciation for being reminded.

Fabb also noted a change in tax-paying habits in Fayette County. Long lines of property owners waiting to pay their taxes in person at the office are dwindling and in their place come stacks of check-bearing mail.

slow either had forgotten to make their payments or were waiting to get some money." To back that up, he said most of them expressed their appreciation for being reminded.

Near-Millionaire

AKRON (U-P) — The estate of the late Dr. John W. Hassenflue was valued at \$934,610 in an inventory filed in probate court. Three daughters will share the estate.

The average price on residential swimming pools in the last four years has run around \$3,000.

Maybe There Is Truth in This Man's Criticism

What seems to be a strong ambition in the minds of many American parents toward making things easier for their children today, in both social life and schools, is beginning to receive critical attention in many places across our nation.

It is rather astounding to hear such comments as that recently made by John B. Kelly in the July Reader's digest when he declared: "American youngsters today are weaker and flabbier than those in many other countries and they are growing softer year by year."

This sounds like a terrific indictment and the average adult wonders if it is true, and if so, why.

This man Kelly who made this statement appears to support it with some figures that cannot easily be laughed off. He was wartime Director of Physical Fitness under the Civil Defense program. He blames not only a big percentage of parents in this country, but also to some extent our schools in which many people contend that the emphasis is placed on easier courses, recreation and to some degree entertainment, rather than on education itself and discipline.

In a city like Washington C. H. and a county like Fayette, there is apt to be much disagreement with these statements and it seems quite probable that there is less reason for such criticism in communities of our type, but the disclosures may deserve some special attention here also. Maybe we are not without some faults.

Kelly also says that "if parents and teachers fail to wake up to the alarming trend, we shall become a nation of weaklings."

The Digest article reports the results of studies on more than 7,000 children, 6 to 16 years old, in America, Italy, Austria

and Switzerland. Taking the six basic Kraus - Weber "strength and flexibility" tests, 57.9 per cent of American youngsters failed in one or more, as compared with only 8.7 per cent of European children. Experts say that any 6 to 16-year-old in good condition should be able to pass these tests, which are illustrated in the article.

Almost six out of ten American children were found physically unfit, compared to less than one out of ten in Europe. President Eisenhower, shocked by these figures, scheduled a national conference to deal with the situation.

The physical condition of our youth is even worse today, the article says, than during World War II when nearly three million young men were rejected by the Armed Forces for physical reasons.

Despite the better food and medical care which keep childhood mortality low in this country, our children lack ruggedness, Kelly contends. European youngsters walk more, ride less; do chores which machines do for us, and exercise more than do the TV—and movie-minded youth of America.

Many ills, coronary disease, high blood pressure, diabetes and others — are linked by medical men to unfitness and flabbiness. Emotional troubles, too, stem from physical softness.

Mr. Kelly says a return to "old fashioned calisthenics" could be a big help in reversing the current trend to youthful softness.

Some people suggest something that our dads found better than "calisthenics". That was WORK. They have an idea it would prove rather effective today, too, if it were given a chance.

The boys didn't then have to have cars to chase around in, nor tax - paid "recreation" to entertain them. And they turned out to be pretty husky chaps at that.

Diet and Health

By HERMAN N. BUNDESEN

Development of numerous new tranquilizing agents has sparked recent medical advances. In today's monthly review of medicine, let's take a look at some of these drugs.

Serpasil is a combination of the tranquilizing agent, Serpasil, and the mild psychomotor stimulant, Ritalin. It is used by the doctor in the treatment of various disorders marked by tension, nervousness, anxiety, apathy and mild depression.

Clinical Studies

Recent clinical studies have indicated that combining the two drugs produces complementary action. Serpasil frees the patient from tension and anxiety while Ritalin stimulates and brightens his mental outlook.

Serpasil is reported useful in treatment of hypertension, chronic fatigue, menopause ailments and other conditions.

Meratran-Reserpine is a combination of a powerful but harmless mood-lifting chemical with a tranquilizing agent. Doctors report it combats the three major symptoms of Parkinson's disease — trembling, mental depression and muscular rigidity.

While the new drug does not affect the underlying disease, it does hold the physical symptoms in check while also giving the Parkinsonian patient experiences of pleasant relaxation.

The tranquilizing drug, Miltown, is reported to be effective in treating epilepsy and in controlling severe pain associated with advanced cancer.

The drug brought relief to 83 per cent of the patients to whom it was administered in one particular type of epilepsy and some relief to one of every three persons tested with epilepsy of all types, Chicago doctors report.

New York State doctors, meanwhile, have been using the drug with cancer patients. They report it reduces psychic as well as muscular tension.

But here is a timely word of caution: This drug should be used only under the doctor's direction.

QUESTION AND ANSWER

C. L.: Do the lungs do anything besides provide oxygen for the body?

Answer: The lungs have many functions besides the providing of oxygen.

They help regulate the body heat by warming the air that is breathed in and out and eliminating excessive heat from the body.

An excessive amount of water

Tranquilizing Drugs

in the tissues is many times excreted by the lungs in the form of moisture. The movement of the lungs also promotes circulation

Deer Tears: Good Medicine

By Hal Boyle

NEW YORK (AP)—Some things a columnist might never know if he didn't read his mail:

That a nonfattening ice cream cone has been patented.

That during the Middle Ages the tears of a male deer were highly valued as a medicine. Deer were available for rent, but how did they make them cry?

That automatic vending machines are now on the market which will serve a complete meal from soup to nuts.

That 10 million separate calculations are required to make an accurate nationwide weather forecast for 24 hours.

That the Irish and British suffer more dental decay than the

Italians, but an Italian is more likely to develop pyorrhea.

That if all the fluorescent lamps made in America in the last 18 years were wired together they would form a continuous chain of light that would encircle the earth seven times and extend to the moon and back. Why hasn't this been done?

That in out of 20 American families which paint their own homes the job is done entirely by the wife. And she used 25 per cent more paint than is really necessary.

That in Nepal, where women are considered inferior, a wife's meal often consists only of the scraps her husband leaves on his plate.

That in Sweden, which has the highest percentage of car ownership in Europe, every 11th person has an automobile. But in the United States there is more than one vehicle for every three persons.

That although the Soviet Union is three times the size of the United States it has only a fourth more arable land.

That a poll by the Roman Catholic Digest showed 90 per cent of American Negroes favor integration, 6 per cent want the races kept apart, 4 per cent expressed no opinion. The same poll showed 74 per cent of Southern whites and 22 per cent of Northern whites opposed to integration.

A Word for Dick Nixon

By George Sokolsky

Standing on the Great Barrington station waiting for a train to arrive, I overheard the conversation of two ladies and a man on the subject of Ike's health. The point they made was that it is too risky to have a sick man in the White House and that even Walter Lippmann says so, which made it final.

Conversations of this nature are peculiarly illogical. Ike is too old; Nixon is too young. Ike lacks physical strength; Nixon has too much. Ike is a part-time president; Nixon is too active a vice president. More simply stated, it all comes down to this: Eisenhower and Nixon are Republicans and the Democrats are conducting a campaign to defeat them.

Realistically Ike's heart and fleum are the campaign issues. The Democrats have not yet discovered the one slogan that could defeat Eisenhower, but they have his innards to work on. Averell Harriman has an issue: it is that he is the only man with presidential aspirations who has never been soft on Communists. He got into a bit of trouble with other Democrats and had to back track, but he might have stuck to his guns, for when nearly everybody in official Washington was weak on communism, Harriman, as ambassador to Soviet Russia, was sending back dispatches indicating a correct understanding of the problem. I quote a few sentences from Harriman's dispatches from the State Department report on the Malia and Yalta conferences:

(Russian policy involved the use of a) "...wide variety of means at their disposal—occupation troops, secret police, local Communist parties, labor unions, sympathetic leftist organizations, sponsored cultural societies, and economic pressure—to assure the establishment of regimes which, while maintaining an outward appearance of independence

and of broad popular support, actually depend for their existence on groups responsive to all suggestions emanating from the Kremlin..."

Harriman reported this before anyone in official Washington publicly admitted that Stalin had jobbed the United States. Harriman could use his messages to his advantage now that these papers are in the public domain and he probably could gain some support on the communist issue.

Can anti-communism be a great issue in 1956? I doubt it. In 1952, anti-communism was the property of an esoteric group of devoted fanatics, like myself, who had discovered the spies and subversives and shouted a gainst Stalin from the house-tops. In 1956, about everybody is an anti-communist. It is as fashionable in 1956 to sput upon the memory of Stalin and to regard American communists as funny nuisances as in 1952, there was a tendency to dislike anti-communists as stooges of Joe McCarthy. Therefore, "soft on communism" will not be an issue in this campaign no matter who is nominated.

Richard Nixon started his political upswing as a member of the House Committee on Un-American Activities. The hatred for him in certain circles originates in the fact that he more than any other member of this committee, except Karl Mundt, persisted in the examination of some witnesses with greater intelligence and a keener understanding than is usual with congressional committees. Among the witnesses was Alger Hiss. A re-reading of the Hiss hearings before this committee is convincing that were it not for Nixon, Hiss would have got off scot free and probably it would have been Whittaker Chambers who might have gone to jail.

Alger Hiss made a very good impression on the committee, but Nixon persisted. I wish to cite a few paragraphs to show Nixon's persistence:

"Mr. Nixon, I have just a few more questions, Mr. Hiss."

"The point at issue in this hearing today is whether or not you knew Crozier under the circumstances that you have indicated to the committee or whether you knew Crozier under the circumstances he indicated to the committee. After your testimony in public session the committee is started on the premise that you

did not know Chambers and that premise, of course, now has been changed. We do have agreement on the point that you and Mr. Chambers were acquainted under another name.

"Mr. Hiss, I did not know Chambers. The name meant nothing to me and I so informed your committee by wire. And so testified."

"Mr. Nixon, You understood, Mr. Hiss, I think, that I said 'under another name.'"

"Mr. Hiss, Yes."

Cincinnati Boy's Death Being Probed

CINCINNATI (AP)—The Hamilton County coroner was being asked today to determine the cause of the death of 7-year-old Lonnie Seitel whose body was found yesterday in a swimming pool at a private day camp near here.

The boy had gone to the camp for an outing. Camp officials noticed the body in the pool. Older boys, sitting nearby, said they had not heard a splash and had not seen Lonnie enter the water.

Old Church Slated To Become Museum

ASHTABULA (AP)—Christ Episcopal Church, organized in nearby Windsor Mills 123 years ago, is going to become a museum.

The Rev. Dayton Wright, rector of St. James Church in Painesville and minister-in-charge at Windsor Mills, said the old church has been put under the care of the Ashtabula Historical Society.

The church, long known as the "mother church" of the Episcopal Diocese of Ohio, has been opened only once a year for services in recent years.

The Rev. Philander Chase organized it in 1817, two years before he was named bishop.

John and Samuel Adams of Revolutionary fame were second cousins.

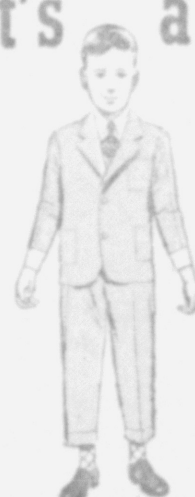

It takes 35 men about three months to repaint the Capitol dome in Washington.

If this red warning signal

lights up

on the transformer near your home...

...it's a sign of healthy growth!

You and your neighbors have added many appliances, and are using more electricity. You've "outgrown" your present transformer just as your boys outgrow their clothes! ("What is a transformer?" you ask. It's a box on a pole that receives electricity at high voltages, and reduces it to the usable voltages your appliances need.)

If you should see this light before we do...

We'd appreciate it if you would call our nearest office and tell us. DP&L service men are watching for these lights, but they can't keep an eye on 40,000 transformers at all times.

We'll check and correct...

—to meet your new electric service needs, and provide for your future requirements.

These signal lights represent a sizeable expenditure—but they're worth it. They help us anticipate your needs, and give you better service.

Alger Hiss made a very good impression on the committee, but Nixon persisted. I wish to cite a few paragraphs to show Nixon's persistence:

"Mr. Nixon, have just a few more questions, Mr. Hiss."

"The point at issue in this hearing today is whether or not you knew Crowsley under the circumstances that you have indicated to the committee or whether you knew Crowsley under the circumstances he indicated to the committee. After your testimony in public session the committee started on the premise that you

did not know Chambers and that premise, of course, now has been changed. We do have agreement on the point that you and Mr. Chambers were acquainted under another name.

"Mr. Hiss, I did not know Chambers. The name meant nothing to me and I so informed your committee by wire. And so testified."

"Mr. Nixon, you understood, Mr. Hiss, I think, that I said 'under another name.'"

"Mr. Hiss, yes."

Traffic Death Record Looming

Safety Council Sees
Need of 'Miracle'

CHICAGO (AP)—The National Safety Council said today it will take "almost a miracle" to head off a record high national traffic toll in 1956.

Ned H. Dearborn, council president, made the prediction on the basis of statistics showing that 18,120 persons have been killed in traffic accidents in the first six months of this year.

It set a new all-time high for the period, overshadowing the previous mark of 17,320 for the first half of 1957. The traffic death toll for the first six months of 1956 represented a 10 per cent increase over a similar period last year.

The June traffic toll was 3,400, the largest number for a June month in history and 14 per cent higher than June a year ago. The previous June mark of 3,119 was set in 1952.

Dearborn said at the present rate the record traffic toll of 39,969, set in 1941, will be exceeded by some 2,000.

"IT WILL TAKE almost a miracle to head off a record high toll," Dearborn said.

"But this miracle can happen if the American public is sufficiently shocked by what is going on to stop doing the things that are causing these accidents.

"Courtesy, common sense and care will do the trick."

Of 47 states reporting traffic figures for the six-month period, 34 showed increases, 11 decreases and two no change. Rhode Island had a 40 per cent decrease.

Oh That's Just a Lot of Talk - - -

ROSEVILLE, Calif. (AP)—The man deposited \$1.10 for a call to Oakland, Calif. but talked on and on. The telephone operator, worried about a fast get-away, asked a policeman to keep an eye on the phone booth.

"Say buddy, you've been gabbing over an hour," the bored cop finally said.

"I only talked three minutes," the man replied. "My girl talked the rest of the time."

The cop had the last word. The toll, all \$14.20, was rung up on the spot.

Dadblame City Boy

KNOXVILLE, Tenn. (AP)—There was a faint suspicion that the policeman who wrote this report on a missing cow didn't grow up on a farm:

"The cow is yellow, about six or seven years old, weighs about 700 pounds and has a missing milk spout."

REFINERY FIRE BLACKENS THE TEXAS SKY

OIL SMOKE blackens the sky near Dumas, Tex., where the \$75,000,000 Shamrock Oil and Gas corporation refinery explosion burned 19 men to death. Forty others were injured when the small tank fire touched off other tanks. (International Soundphoto)

Hopes Dim For Phone Strike Accord

PORTSMOUTH, Ohio (AP)—Hopes for a quick settlement to the 17-day-old strike of 600 operators and service personnel at the Consolidated Telephone Co. dimmed Monday with the prediction by a union spokesman that agreement on a new contract would not be reached this week.

Previously, both union and management negotiators had expressed optimism at the way the contract talks were going. But Frank Thernes, District 4 representative of the Communication Workers of America (CWA), said the talks had "failed to produce anything definite" on several key issues.

Thernes said in a prepared statement:

"Fifty-four sections on work

practices in the company proposed contract have been brought into an area of tentative agreement through definition and explanation.

"But conferences to date have failed to produce anything definite on such issues as the union shop, no strike clause, personnel reclassification, termination pay, sick

leave benefits and arbitration." The company serves parts of 24 southern Ohio counties.

Canton Man Deported in Narcotic Case

CLEVELAND (AP)—A Canton Ohio man has been deported to Italy on the basis of a 1952 order, the Immigration Service has disclosed. He is Theodore Abbenanti, 57, who often was arrested for narcotics violations.

The arrest was made in his Canton apartment last week, and the agents hustled him to New York, where he was put aboard a ship for his native Italy.

Known as Ted Abbey, he was a witness last November when a Senate sub-committee held hearings in Cleveland on narcotics.

Asked whether he ever brought narcotics from Sam G. Papalardo, a Cleveland bartender, he refused to answer. He indicated that he might incriminate himself by his answer and might be afraid of

Mrs. Witter R. Cory was a business visitor in Columbus on Monday.

Today's World News in Brief

Ike's Health View Labeled 'Slanted'

WASHINGTON (AP) — Sen. Allott (R-Colo.) today labeled as "politically slanted" a belief by a prominent heart specialist that the public has not been given all the facts about President Eisenhower's illnesses.

Dr. David Rutstein, head of the Harvard Medical School's Department of Preventive Medicine and a vice president of the American Heart Assn., raised the issue in an Atlantic Monthly magazine article.

"The public," Dr. Rutstein said, "was not informed of the published scientific evidence" that three researches on heart attacks such as those suffered by Eisenhower showed only 50 per cent of such patients survived at the end of five years.

With respect to the President's intestinal operation, Dr. Rutstein said Eisenhower's physicians gave no indication "that ileitis is a chronic disease with a rate of recurrence varying between one-third and two-thirds of those on whom operation is performed, depending on the state of the disease, the type of surgery and the duration of the follow-up."

"Neither did they indicate that the majority of recurrence comes within the first year after operation," he said. "Nor was there any mention of the medical fact that difficulty might be anticipated in maintaining the President's nutrition and weight, or the further likelihood of future periods of disability."

LOUISVILLE, Ky. (AP) — Kentucky's first superhighway, once labeled by Gov. A. B. Chandler as "the road which starts nowhere and goes nowhere," officially opens today. The 40-mile road links Louisville to Elizabethtown and cost a total of \$38½ million. Chandler opposed the project but will be on hand for dedication of the road, started under his predecessor, former Gov. Lawrence Wetherby. The turnpike was a bitter issue between the two in the 1955 Democratic gubernatorial primary when Wetherby supported Bert T. Combs over Chandler for the nomination.

SANTA BARBARA, Calif. (AP) — In a hospital where they were taken for treatment of minor injuries, Mrs. Janet Clough and Earl B. Butler explained why their cars collided: Both were watching a polo match.

"My doctor prescribes St. Joseph Aspirin For Children"

Says Mrs. W. SELKAITIS, N.Y.C. This specialized tablet is approved by more doctors than any other brand. Children like its pure orange flavor, accept it readily.

ST. JOSEPH ASPIRIN FOR CHILDREN

liceman give a truck driver a traffic citation.

CHICAGO (AP) — Some 900 policemen will be detailed to the Democratic national convention, which opens here Aug. 13 to handle traffic. Police said about 350 officers will be assigned to the convention area in the vicinity of the International Amphitheatre. Extra details will be assigned to Loop hotels housing convention visitors, with the largest force to be at the Hilton, the Loop convention headquarters. The department has about 8,000 policemen.

MOSCOW (AP) — Japan and the Soviet Union reopened talks today aimed at writing a World War II peace treaty.

NAHA, Okinawa (AP) — Typhoon Wanda swung a glancing hook at Okinawa tonight and churned relentlessly toward northern Formosa. It is expected to hit there in full force late Wednesday. Winds of 50 miles an hour slammed Okinawa today with little damage.

DAMASCUS, Syria (AP) — Officials said today Syria has banned movies starring Danny Kaye because the Hollywood comic has carried on pro-Israeli activities in the United States and Israel.

NICOSIA, Cyprus (AP) — Two Greek Cypriots—a woman and a man—were slain Monday night in separate shootings on Cyprus, the latest in a fresh wave of violence. British authorities have said they believe the new outburst is part of a drive to discourage cooperation with security forces.

VIENNA, Austria (AP) — Thomas Bourdillon, 32, a member of the British expedition that conquered Mt. Everest, has been killed climbing a mountain in the Swiss Alps.

Bourdillon was a rocket expert

4-H Club Activities

WI-DO-OD-IT

The Wi-Do-od-It Club treasury should get a little helpful stuffing from a soda pop sale the group plans to run at the Bea-Mar Farms dispersal sale Aug. 20.

Plans for the sale were made at a regular Wi-Do-od-It meeting held at the home of Nelson Blackmore.

Boys in the club will also help out at the sale by parking cars, it was agreed. Members will meet Aug. 18 at 3 p. m. at the Bea-Mar Farms to make final arrangements.

A trip to Coney Island has been scheduled by the group for Aug. 7. Members will meet at the home of Rosalyn and Nancy Marting at 9:30 a. m. They'll spend the day at the Amusement Park and go into Cincinnati in the evening to see Cinerama.

Bill Riley, the club vice-president, called the meeting to order. Karla Gorman called the roll and read the secretary's report. Robby Haigler gave the treasurer's report.

No date was set for the next meeting. Refreshments were served by Nelson Blackmore. Advisers to the group are Sam Marting and Barton Montgomery.

No Crying over Spill

MUNCIE, Ind. (AP) — Officials of nearby Yorktown did some quick thinking when the dump mechanism on a truck carrying hot asphalt through the town tripped accidentally. They did a fast job of spreading the spilled asphalt over the street. It was intended for a job out of town.

for the British Ministry of Supply.

ANCONA, Italy (AP) — Four Yugoslav fishermen asked for political asylum in Italy today after forcing their captain at pistol point to land them in this Adriatic port.

ROME (AP) — Ava Gardner said today she and Frank Sinatra have signed a property settlement preliminary to ending their five-year marriage. She said no cash was involved in the settlement.

Quick Service Gets Woman Lost Dog

SAN ANTONIO, Tex. (AP) — The San Antonio Express-News lost a classified ad customer but set a new record for quick service.

A woman called to report her 2-year-old Boston bulldog was missing and wanted to place a lost and found advertisement. Floyd Engle, manager, overheard the call and remembered noticing a dog answering the description in his car port when he left home for work. He called his wife and she called the woman to come get her dog.

Today's World News in Brief

Ike's Health View Labeled 'Slanted'

WASHINGTON (AP) — Sen. Allott (R-Colo.) today labeled as "politically slanted" a belief by a prominent heart specialist that the public has not been given all the facts about President Eisenhower's illnesses.

Dr. David Rutstein, head of the Harvard Medical School's Department of Preventive Medicine and a vice president of the American Heart Assn., raised the issue in an Atlantic Monthly magazine article.

"The public," Dr. Rutstein said, "was not informed of the published scientific evidence" that three researches on heart attacks such as those suffered by Eisenhower showed only 50 per cent of such patients survived at the end of five years.

With respect to the President's intestinal operation, Dr. Rutstein said Eisenhower's physicians gave no indication "that ileitis is a chronic disease with a rate of recurrence varying between one-third and two-thirds of those on whom operation is performed, depending on the state of the disease, the type of surgery and the duration of the followup."

"Neither did they indicate that the majority of recurrence comes within the first year after operation," he said. "Nor was there any mention of the medical fact that difficulty might be anticipated in maintaining the President's nutrition and weight, or the further likelihood of future periods of disability."

LOUISVILLE, Ky. (AP) — Kentucky's first superhighway, once labeled by Gov. A. B. Chandler as "the road which starts nowhere and goes nowhere," officially opens today. The 40-mile road links Louisville to Elizabethtown and cost a total of \$38½ million. Chandler opposed the project but will be on hand for dedication of the road, started under his predecessor, former Gov. Lawrence Wetherby. The turnpike was a bitter issue between the two in the 1955 Democratic gubernatorial primary when Wetherby supported Bert T. Combs over Chandler for the nomination.

SANTA BARBARA, Calif. (AP) — In a hospital where they were taken for treatment of minor injuries, Mrs. Janet Clough and Earl R. Butler explained why their cars collided: Both were watching a polo match.

"My doctor prescribes St. Joseph Aspirin For Children"

See Mrs. W. SELKAITIS, N.Y.C. This specialized tablet is approved by more doctors than any other brand. Children like its pure orange flavor, accept it readily.

ST. JOSEPH ASPIRIN FOR CHILDREN

liceman give a truck driver a traffic citation.

CHICAGO (AP) — Some 900 policemen will be detailed to the Democratic national convention, which opens here Aug. 13 to handle traffic. Police said about 350 officers will be assigned to the convention area in the vicinity of the International Amphitheatre. Extra details will be assigned to Loop hotels housing convention visitors, with the largest force to be at the Hilton, the Loop convention headquarters. The department has about 8,000 policemen.

MOSCOW (AP) — Japan and the Soviet Union reopened talks today aimed at writing a World War II peace treaty.

California's Black Gold Found in Ripe Olives

By LEE HANCOCK
(Central Press Association)

The California olive industry is a natural for a state that loves superlatives. When talking about his olive trees, the Californian can freely toss around words like "first," "biggest," "best," and even "supercolossal" without fear of being challenged. For California's olive industry is unique. There's nothing else quite like it in the world.

It all started back in 1769, when Franciscan missionaries settling near what is now San Diego, planted a few olive trees. The humble missionaries had no idea that they were laying the groundwork for an olive dynasty. They simply wanted to be able to make olive oil for themselves.

Today Mission olives, many of them from those same trees, form a good part of California's yearly production of about 50,000 tons of fruit. In addition, there is also the Manzanillo olive, larger than the Mission, and the super-colossal Sevallano, the biggest olive in the world, famed for its meaty quality and popularity at the dinner table.

CALIFORNIA virtually has a monopoly on the production of canned ripe olives of the super Sevallano variety. These huge olives are natives of the Mediterranean countries, but there they are picked green and pickled, the only way of getting ahead of the Mediterranean fruit fly, which punctures the olive as it ripens.

In California, which has so far escaped the ravages of the Mediterranean fruit fly, the olives are allowed to ripen on the trees.

Since California's olive trees occasionally come up with a bumper crop of 70,000 tons, olive growers were faced with the task of educating the rest of the nation to eat black olives. For not so many years ago, a goodly portion of the population looked askance at an olive that wasn't green.

So Californians organized an olive advisory board its purpose being to educate the public in the joys of ripe olive eating.

That the idea was a good one is proved by the fact that it worked. Today California's fabulous ripe olives find a ready market.

IT TAKES an olive tree about seven years to bear olives, about

10 to become self-supporting. After that, however, the trees go on forever. Some live trees in the Mediterranean countries are still yielding good fruit after 2,000 years of bearing. The trees planted by the Mission fathers back in 1769 are, of course, just hitting their stride.

One of the olive grower's favorite practical jokes is to feed an unwary easterner a luscious ripe olive right off of the tree. The victim never fails for this more than once. Fresh off the tree olives are bitter as gall.

They must be processed in order to remove the bitterness. The first step is to soak the olives in a lye solution. Next the lye is removed by washing in fresh water. The fruit is then soaked for a few days in salt water. Finally the olives are graded and canned with salt water. The end result of all of this effort is the tantalizing ripe olive.

Californians do not, of course, pass up the more ancient customs of processing olive oil or canning olives green. Bruised ripe olives are used for oil as are some of the smaller Mission olives. Occasionally selected varieties are canned green.

9 U. S. Solons Due To Study Sea Tragedy

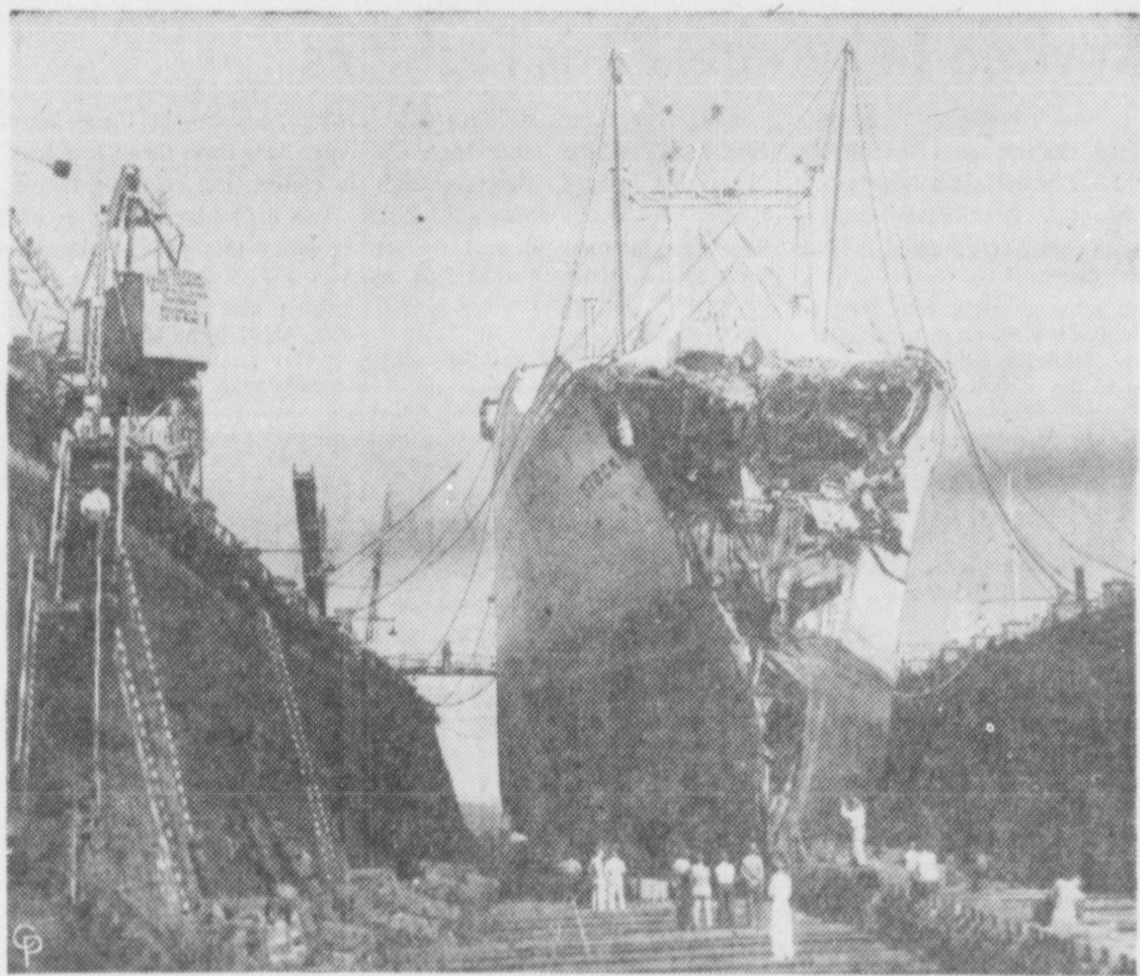

NEW YORK (AP)—Nine congressmen will go to a Brooklyn drydock tomorrow to inspect the Swedish ship damaged in the collision that sank the Italian luxury liner Andrea Doria.

The congressmen, members of the House of Representatives, will look over the liner Stockholm as the first step in a probe of safety at sea.

The two sleek modern ships collided in dense fog south of Nantucket Island, Mass., last Wednesday night. The 30,000-ton Doria plunged to the bottom of the Atlantic the next day. The 12,600-ton Stockholm struggled back to port here with a smashed bow.

In other developments:

1. The Italian Line said the Doria radar-tracked the oncoming Stockholm before the fatal crash. Capt. Piero Calamai said he him-

ENGINEERS AND YARD PERSONNEL make a survey of the monumental task that lies ahead as the battered Swedish liner Stockholm is put in drydock for repairs at the Bethlehem Steel Corporation plant in Brooklyn, N. Y. Towering above them is the ship's sheared off bow and gaping holes that extend well below the waterline as the result of the crash with the liner Andrea Doria. (International)

self watched the Swedish vessel approach on the radar screen. The line declined to say more.

2. The Italian Line listed two known dead, 18 presumed dead and 29 unaccounted for among the Doria's 1,706 passengers and crew. Rescue vessels saved the rest. The line hopes many of the unaccounted for are safe and only failed to register.

3. Miss Nancy Leo, 33, a Miami, Fla., elevator operator, filed a \$200,000 damage suit in federal court—\$100,000 against the Swedish-American Line and \$100,000 against the Italian Line. She alleged the two lines had operated their ships in an unseaworthy condition.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

tion and that the collision was the result of "negligence."

The meat of most poisonous snakes does not contain venom.

14-K
saves
the
day!

*Idea suggested by Al Honschopp
1312 Carolina Ave.,
Cincinnati, Ohio

"Bob watched the Redlegs play one night."

"He's safe! He's out! Bob's in the fight. Can't kill the Ump' from here, but say..."

"14-K" saves the day!

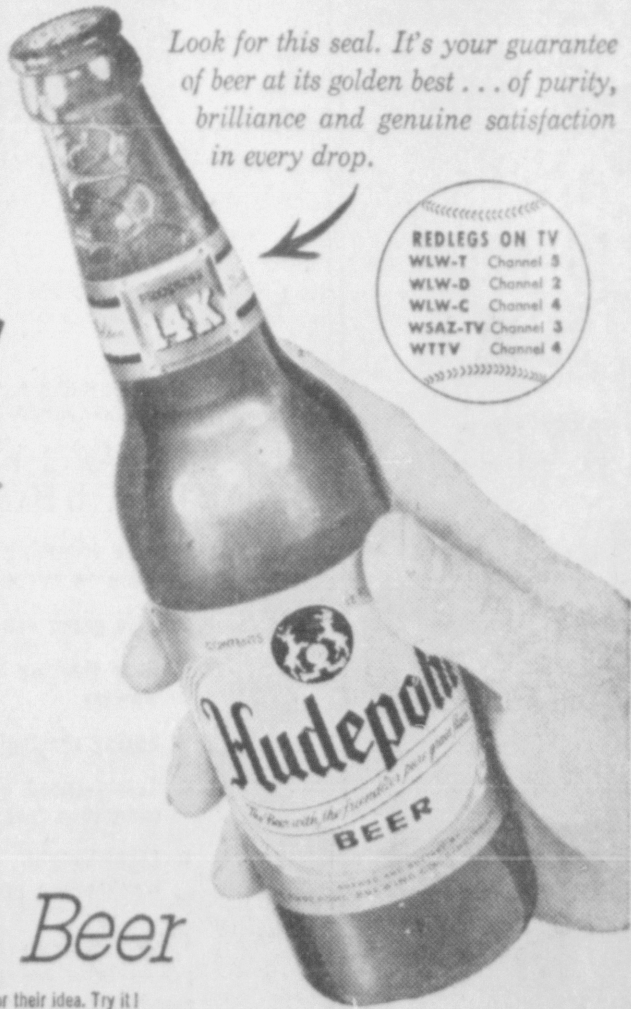

"Ah-h-h...beer at its golden best!"

The truth is that good golden Hudepohl starts out much the same as other really fine beers. With extra-generous portions of grains and hops and yeast and malt. Ingredients of a quality for which we gladly pay a premium. That's what makes a great beer. That plus patience and skill. But then we do something different.

What we do is a closely guarded secret. It's a special, costlier step in brewing. You might call it a finishing process. And what it does is make Hudepohl even brighter and more golden. So we named it Process 14-K. And that's why Hudepohl is more than just another fine beer. It's "14-K!" Which means ... it's beer at its golden best!

Good golden **HUDEPOHL** Beer

* Send in your ideas for another "14-K Saves the Day" cartoon to our ad men (The Hudepohl Brewing Co., Box 423, Cincinnati, O.) Winners receive artist's original cartoon for their idea. Try it!

When talking about his olive trees, the Californian can freely toss around words like "first," "biggest," "best," and even "supercolossal" without fear of being challenged. For California's olive industry is unique. There's nothing else quite like it in the world.

It all started back in 1769, when Franciscan missionaries settling near what is now San Diego, planted a few olive trees. The humble missionaries had no idea that they were laying the groundwork for an olive dynasty. They simply wanted to be able to make olive oil for themselves.

Today Mission olives, many of them from those same trees, form a good part of California's yearly production of about 50,000 tons of fruit. In addition, there is also the Manzanillo olive, larger than the Mission, and the super-colossal Seviliano, the biggest olive in the world, famed for its meaty quality and popularity at the dinner table.

CALIFORNIA virtually has a monopoly on the production of canned ripe olives of the super Seviliano variety. These huge olives are natives of the Mediterranean countries, but there they are picked green and pickled, the only way of getting ahead of the Mediterranean fruit fly, which punctures the olive as it ripens.

In California, which has so far escaped the ravages of the Mediterranean fruit fly, the olives are allowed to ripen on the trees.

Since California's olive trees occasionally come up with a bumper crop of 70,000 tons, olive growers were faced with the task of educating the rest of the nation to eat black olives. For not so many years ago, a goodly portion of the population looked askance at an olive that wasn't green.

So Californians organized an olive advisory board its purpose being to educate the public in the joys of ripe olive eating.

That the idea was a good one is proved by the fact that it worked. Today California's fabulous ripe olives find a ready market.

IT TAKES an olive tree about seven years to bear olives, about

10 to become self-supporting. After that, however, the trees go on forever. Some live trees in the Mediterranean countries are still yielding good fruit after 2,000 years of bearing. The trees planted by the Mission fathers back in 1769 are, of course, just hitting their stride.

One of the olive grower's favorite practical jokes is to feed an unwary easterner a luscious ripe olive right off of the tree. The victim never falls for this more than once. Fresh off the tree olives are bitter as gall.

They must be processed in order to remove the bitterness. The first step is to soak the olives in a lye solution. Next the lye is removed by washing in fresh water. The fruit is then soaked for a few days in salt water. Finally the olives are graded and canned with salt water. The end result of all of this effort is the tantalizing ripe olive.

Californians do not, of course, pass up the more ancient customs of processing olive oil or canning olives green. Bruised ripe olives are used for oil as are some of the smaller Mission olives. Occasionally selected varieties are canned green.

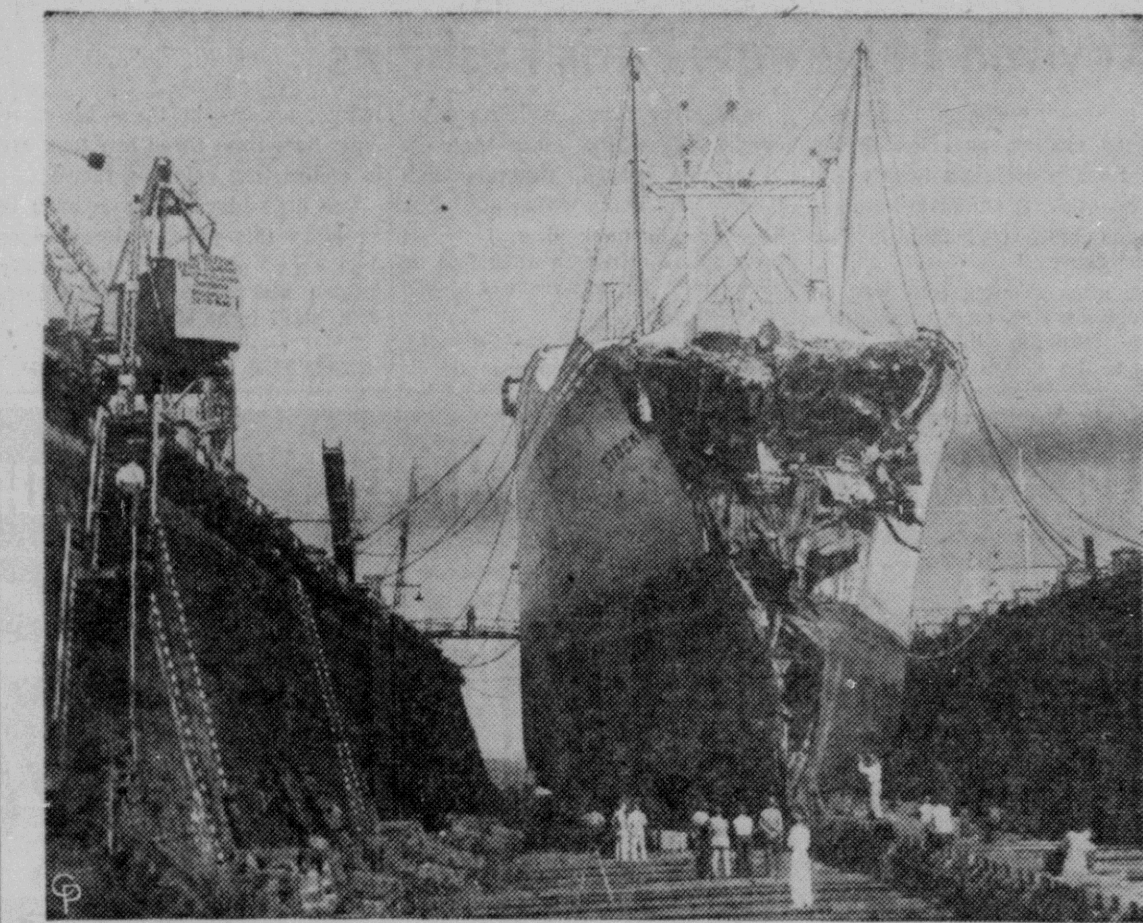

9 U. S. Solons Due To Study Sea Tragedy

NEW YORK (AP)—Nine congressmen will go to a Brooklyn drydock tomorrow to inspect the Swedish ship damaged in the collision that sank the Italian luxury liner Andrea Doria.

The congressmen, members of mittee, will look over the liner Stockholm as the first step in a probe of safety at sea.

The two sleek modern ships collided in dense fog south of Nantucket Island, Mass., last Wednesday night. The 30,000-ton Doria plunged to the bottom of the Atlantic the next day. The 12,600-ton Stockholm struggled back to port here with a smashed bow.

In other developments: 1. The Italian Line said the Doria radar-tracked the oncoming Stockholm before the fatal crash. Capt. Piero Calamai said he him-

ENGINEERS AND YARD PERSONNEL make a survey of the monumental task that lies ahead as the battered Swedish liner Stockholm is put in drydock for repairs at the Bethlehem Steel Corporation plant in Brooklyn, N. Y. Towering above them is the ship's sheared off bow and gaping holes that extend well below the waterline as the result of the crash with the liner Andrea Doria. (International)

self watched the Swedish vessel approach on the radar screen. The line declined to say more.

2. The Italian Line listed two known dead, 18 presumed dead and 29 unaccounted for among the Doria's 1,706 passengers and crew. Rescue vessels saved the rest. The line hopes many of the unaccounted for are safe and only failed to register.

3. Miss Nancy Leo, 33, a Miami, Fla., elevator operator, filed a \$200,000 damage suit in federal court—\$100,000 against the Swedish-American Line and \$100,000 against the Italian Line. She alleged the two lines had operated their ships in an unseaworthy condition and that the collision was the result of "negligence."

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

The meat of most poisonous snakes does not contain venom.

14-K

saves the day!

*Idea suggested by Al Honschopp
1312 Carolina Ave.,
Cincinnati, Ohio

"Bob watched the Redlegs play one night."

"He's safe! He's out! Bob's in the fight. Can't kill the Ump' from here, but say..."

"14-K" saves the day!

"Ah-h-h...beer at its golden best!"

The truth is that good golden Hudepohl starts out much the same as other really fine beers. With extra-generous portions of grains and hops and yeast and malt. Ingredients of a quality for which we gladly pay a premium. That's what makes a great beer. That plus patience and skill. But then we do something different.

What we do is a closely guarded secret. It's a special, costlier step in brewing. You might call it a finishing process. And what it does is make Hudepohl even brighter and more golden. So we named it Process 14-K. And that's why Hudepohl is more than just another fine beer. It's "14-K!" Which means ... it's beer at its golden best!

Good golden **HUDEPOHL** Beer

* Send in your ideas for another "14-K Saves the Day" cartoon to our ad men (The Hudepohl Brewing Co., Box 423, Cincinnati, O.) Winners receive artist's original cartoon for their idea. Try it!

U. S. Corporate Profits Show General Climb

Some Key Industries Slip, Tend To Pull Down Average

By SAM DAWSON
NEW YORK (AP)—American corporations on the whole continue to make more profits than in the previous years. But weakness in some key industries pull the average gains down from the heady percentages they were reporting some months back.

In the first six months of 1956 net profits after taxes for 448 corporations, the first to report, averaged 5.5 per cent higher than in the first half of 1955. But a year ago the average gains were 34.7 per cent higher than the first six months of 1954.

About three out of four corporations, however, show increases this year. There were 120 companies which fell below the earnings they reported in the first half of last year. Eleven companies operated in the red during the first half of this year. In the previous year 17 did.

The industries which as a group declined this year from the profits they reported a year ago include automobiles, auto suppliers, glass, aircraft, breweries, railroads and electric equipment.

Utilities turned in an average 12 per cent gain in the first half of the year. The 397 industrials, combined, were up 7.4 per cent. But the 32 railroads, with 15 on the declining side and three operating in the red, showed a 23 per cent drop this year as a group.

Biggest comeback from its own private depression of 1955 was the meat packing group, which this year shows a 164.3 per cent gain in profits.

Rail equipment makers have profits averaging 65.7 per cent higher this year. Machine tool companies show combined gains of 49.6 per cent. Coal companies report a 45.5 per cent increase as they hit the comeback trail.

Oil equipment makers spurred ahead by 61.7 per cent, while the oil producers advanced 18.8 per cent to continue their steady gains year by year since the end of the year.

The 26 steel and iron companies reporting early show a combined profit increase of 26.3 per cent in the period ending June 30.

The generally booming economy in the first half is reflected by the sweeter profit reports of other industries: Makers of containers averaged 29.3 per cent gain in earnings, and makers of paper and paper products advanced as a group by 18.2 per cent.

Business machine makers were 27.3 per cent better off. The drug companies as a group advanced their gains by 37.3 per cent. Air-

lines, carrying record pay loads, pushed their profits 19.6 per cent higher.

If the auto companies come back strong as they expect and the steel companies rebound from their strike as expected, the year as a whole should run 1955 a close race if not top it as a money maker for business as a whole.

1910 Elegance Is Revived In Newest Paris Fashions

PARIS (AP)—A swaggering elegance harking back to 1910 marked the Pierre Balmain collection today as the second week of the new Paris fashion season got under way.

Priceless furs bordered trains on fabulous evening coats. Bird of paradise, aigrette and ostrich plumes shot up from formal hair-

dos to nod royally in passage. These clothes, said the designer, "Turn in nostalgia toward Bol-dini beauties, D'Annunzio heroines, parading with greyhounds in Florentine groves."

One mink evening coat was cut to floor-sweeping proportions. Many Balmain necklines were down to the waistline—in the back.

Instead of capes, which are becoming something more than obvious this season, Balmain does jackets and coats which only look like capes in back view. They get their fullness from a deep fold on each side, starting from a sloped shoulder line.

Bosoms, are emphasized with bra draping and generous décol-

letage, usually in three big scallops. Sometimes these bra tops are in contrasting color or fabric.

The little black dress is back in its glory this year. Balmain does dozens of them, beautifully draped and generously décolleté, with high, tight corset waists.

Compensation Law Said Old-Fashioned

LOS ANGELES (AP)—A Department of Labor official says workmen's compensation laws are old-fashioned and the individual states, not the federal government, should update them.

Arthur Larson, undersecretary of labor, said compensation laws "are the granddaddy of all social legislation, the forerunner to So-

cial Security, disability and unemployment insurance acts."

Larson, speaking at the opening session of the 10th annual convention of the National Assn. of Claimants Compensation Attorneys, said while the nation has changed during the last half century, the oldest of social laws have generally failed to keep pace.

Health Research Measure Signed

GETTYSBURG, Pa. (AP)—President Eisenhower has signed a bill authorizing a three-year \$90 million program of federal grants for help in construction of health research facilities by public and non-profit institutions.

The President called it "an important step forward" in efforts to eliminate disease and disability, but added the program voted by Congress "is deficient in two important respects:

"If fails to provide assistance, as recommended by the administration, for construction of facilities for the training of medical scientists, and the amounts authorized are inadequate in the light of these needs."

Bugs Shipped In

U. S. Corporate Profits Show General Climb

Some Key Industries Slip, Tend To Pull Down Average

By SAM DAWSON
NEW YORK (AP)—American corporations on the whole continue to make more profits than in the previous years. But weakness in some key industries pull the average gains down from the heady percentages they were reporting some months back.

In the first six months of 1956 net profits after taxes for 448 corporations, the first to report, averaged 5.5 per cent higher than in the first half of 1955. But a year ago the average gains were 34.7 per cent higher than the first six months of 1954.

About three out of four corporations, however, show increases this year. There were 120 companies which fell below the earnings they reported in the first half of last year. Eleven companies operated in the red during the first half of this year. In the previous year 17 did.

The industries which as a group declined this year from the profits they reported a year ago include automobiles, auto suppliers, glass, aircraft, breweries, railroads and electric equipment.

Utilities turned in an average 12 per cent gain in the first half of the year. The 397 industrials, combined, were up 7.4 per cent. But the 32 railroads, with 15 on the declining side and three operating in the red, showed a 23 per cent drop this year as a group.

Biggest comeback from its own private depression of 1955 was the meat packing group, which this year shows a 164.3 per cent gain in profits.

Rail equipment makers have profits averaging 65.7 per cent higher this year. Machine tool companies show combined gains of 49.6 per cent. Coal companies report a 45.5 per cent increase as they hit the comeback trail.

Oil equipment makers spurred ahead by 61.7 per cent, while the oil producers advanced 18.8 per cent to continue their steady gains year by year since the end of the year.

The 26 steel and iron companies reporting early show a combined profit increase of 26.3 per cent in the period ending June 30.

The generally booming economy in the first half is reflected by the sweeter profit reports of other industries: Makers of containers averaged 29.3 per cent gain in earnings, and makers of paper and paper products advanced as a group by 18.2 per cent.

Business machine makers were 27.3 per cent better off. The drug companies as a group advanced their gains by 37.3 per cent. Air-

Health Research Measure Signed

GETTYSBURG, Pa. (AP)—President Eisenhower has signed a bill authorizing a three-year \$90 million program of federal grants for help in construction of health research facilities by public and non-profit institutions.

The President called it "an important step forward" in efforts to eliminate disease and disability, but added the program voted by Congress "is deficient in two important respects:

"If fails to provide assistance, as recommended by the administration, for construction of facilities for the training of medical scientists, and the amounts authorized are inadequate in the light of these needs."

Bugs Shipped In

CADIZ, Ky. (AP)—Trigg County Agent Keith S. Venable said 10,000 ladybugs were shipped here from Dobbins, Calif., to combat plant lice on tobacco.

1910 Elegance Is Revived In Newest Paris Fashions

PARIS (AP)—A swaggering elegance harking back to 1910 marked the Pierre Balmain collection today as the second week of the new Paris fashion season got under way.

Priceless furs bordered trains on fabulous evening coats. Bird of paradise, egret and ostrich plumes shot up from formal hairdos to nod royally in passage.

These clothes, said the designer, "Turn in nostalgia toward Bol-dini beauties, D'Annunzio heroines, parading with greyhounds in Florentine groves."

One mink evening coat was cut to floor-sweeping proportions. Many Balmain necklines were down to the waistline—in the back.

Instead of capes, which are becoming something more than obvious this season, Balmain does jackets and coats which only look like capes in back view. They get their fullness from a deep fold on each side, starting from a sloped shoulder line.

Bosoms are emphasized with bra draping and generous décol-

etage, usually in three big scallops. Sometimes these bra tops are in contrasting color or fabric.

The little black dress is back in its glory this year. Balmain does dozens of them, beautifully draped and generously décollete, with high, tight corset waists.

Compensation Law Said Old-Fashioned

LOS ANGELES (AP)—A Department of Labor official says workmen's compensation laws are old-fashioned and the individual states, not the federal government, should update them.

Arthur Larson, undersecretary of labor, said compensation laws "are the granddaddy of all social legislation, the forerunner to Social Security, disability and unemployment insurance acts."

Larson, speaking at the opening session of the 10th annual convention of the National Assn. of Claimants Compensation Attorneys, said while the nation has changed during the last half century, the oldest of social laws have generally failed to keep pace.

Hank Aaron Is Big Pest To Brooklyn

Famed Bad-Ball Hitter Leads Way to Braves' 8-6 Win over Bums

By THE ASSOCIATED PRESS
Joe Adcock rocks Brooklyn with his home runs, but Hank Aaron, Milwaukee's famous bad-ball hitter, really gives the Dodgers fits.

"Aaron doesn't come into a ball park looking for bases on balls," said Brooklyn right-hander Carl Erskine. "He'll swing at anything he thinks he can hit. A pitcher gets nowhere going outside the range of his bat."

Right-handers Roger Craig and Ed Roebuck and southpaw Ken Lohm a got nowhere against Henry, batting .417 against Brooklyn and leading the National League at .342, Monday night. He smacked three hits in five trips, driving in four runs — including the clincher with his 16th homer — as the first-place Braves socked the Dodgers 8-6 in the opener of a four-game set at Ebbets Field.

It was Milwaukee's seventh straight against the Braves and knocked the third-place world champs five games behind while keeping the Braves 2½ games ahead of Cincinnati, a 4-2 winner at Pittsburgh.

In the only other NL action, Philadelphia jumped past Pittsburgh into fifth place by beating the Chicago Cubs, 5-4 and 4-2, in a two-night twin bill.

In the American, Mickey Mantle socked his 33rd and 34th home runs, one his first grand-slammer of the year, and drove in six runs as the New York Yankees again claimed a 10-game lead with a 13-6 decision over runner-up Cleveland. Detroit beat jinx Frank Sullivan and Boston, 4-1, on Virgil Trucks' three-hit Bob Niekamp's 10th-inning homer beat Kansas City for Baltimore 4-3.

Chicago and Washington were not scheduled.

Aaron, a 22-year-old right-handed spray hitter, knocked his homer with a man on in the seventh off reliever Roebuck for a 7-1 lead. He doubled home a ninth-inning run, but then the edge was 8-4 as Buhl won his 14th and sixth in a row over the Dodgers but wound up still without a complete game at Ebbets Field.

The Dodgers put across three runs in the eighth and brought on Ernie Johnson, who gave up a two-run homer to Peevée Reese in the ninth before nailing it.

Ed Mathews and Adcock also homered to help rock Craig to his first Ebbets Field defeat after winning 19 straight. Adcock, batting .455 vs Brooklyn, socked his 23rd with a man on in the fifth. It was Joe's ninth against the Dodgers this season.

The Redlegs swept their five-game series at Pittsburgh on Gus Bell's third-inning double. Ray Jablonski had singled home two in the second against loser Laurin Pepper. Tom Acker started and lasted until the Bucs' two-run fifth when reliever Hersell Freeman came on to win his ninth.

Harvey Haddix, who didn't walk a man while winning his ninth, took his fifth in a row and gained the NL knockout lead with 116 by fanning eight in his four-hit night-cap job for the Phils. Elmer Valo homered for the Phils, who had two unearned markers. Walt Moryn hit his 13th for the Cub runs, and also smacked one off Robin Roberts, now 11-11, in the opener. Ernie Banks tagged Robin for his 24th.

Mantle, who has smacked nine homers against the Tribe, got No. 3 off Bob Lemon with his bases-loaded job as New York scored seven runs, all unearned, in the second. Whitey Ford struck out 10 to win his 14th with Mantle getting his other homer—going one ahead of Babe Ruth's record 60 paces — off reliever Bob Feller.

Trucks, who walked eight, gave up singles to Billy Klaus and Don Buddin and a homer to Mickey Vernon while the Tigers, who had lost 11 in a row to Sullivan, won it with two runs in the fifth on two-out singles by Frank House and Jim Small.

Niekamp's bust-up homer; his 10th, was off reliever Tom Gorman. Oriole starter Ray Moore homered with a man on for a 3-1 lead, but gave way as the A's rallied. Mike Fornieles won it in relief.

Legion Tourney Taking Its Toll

COLUMBUS (AP) — At least two more teams will be out of the double-elimination American Legion Junior Baseball Tourney tonight.

Two loser's bracket games were scheduled today—Conneaut vs. Defiance and Springfield vs. Barberton. Grove City, which fell before Zanesville 4-2 yesterday, meets Steubenville, 5-2 victor over Conneaut.

St. Marys was out of the tourney after a 5-3 loss to Cincinnati—eliminated for using an ineligible player.

Three winner's bracket games pit Cincinnati against Elyria, Portsmouth against Lancaster and Euclid against Zanesville.

Elyria downed Defiance 5-1, Portsmouth trounced Newark 9-2, and Lancaster defeated Springfield 2-0 in the opening round.

Golf's 19th Hole

The gold program, with many variations, continues without let-up at the Country Club here.

Even before the handicap tournaments, one for the men and one for the women, are completed, 18-hole scores for the club championship tournament have been starting to come in from golfers wanting to qualify for the event, Tony Capuana, the club pro, said. Deadline for qualifying scores is Aug. 5.

Glen Roseboom, Dr. O. W. House, Lon Tannehill and Wayne Shobe are planning to play in the Columbus senior tournament in Columbus on Aug. 9 and 10.

Dick Korn, Ronnie Cornwell and Bill Himmelspach all won prizes at a golf meet in Columbus last week.

The next club dance has been scheduled for Sept. 22.

The annual parent and child Scotch foursome is expected to have a sizeable turnout on Sunday, Aug. 26, starting at 3 p. m.

The next regular Scotch foursome is set for Aug. 12. A buffet supper is to follow play on the course.

Next Sunday, Bill Himmelspach,

Jets Beat Cubs in Wild Scoring Bee

The Jets outscored the Cubs, 14-12, in a wild and woolly post-vacation Little Major League game at Wilson Field Monday evening.

Everything fell apart for both teams in the third inning when the Jets scored 11 runs and the Cubs nine. Other than that single loose frame, the scoring indicated an exciting 3-3 game.

Gary Kimball went the pitching route for the losers, giving up only seven hits as contrasted with ten for the three boys who did mound duty for the Jets. Fielding failures gave the victory to the Coca-Cola team.

Medics Edge Jeff 3-2 in Tight Game

The Medics eked out a tight, 3-2, victory over Jeffersonville Monday evening at Jeff in a hair-raising neck-and-neck Babe Ruth League encounter.

Moving into a 2-2 tie in the second, Jeff held the lead until the fourth when the Medics picked up their winning run. All the Medic efforts after that couldn't prevent the victors from keeping the lead.

Eddy Lee scored the winning run for the Medics in the fourth on a passed ball. Lee had originally got on base with a double — the only extra base hit of the game.

Three big singles brought the Medics runs in the second, with Larry Johns batting in Bob Scott and Larry Kilgore.

For Jeff, the scoring was done by Earl Burns and Jim Cook who came home on passed balls.

Consistency is the word of the Owasco, Mich., bowling team composed of Frieda Zone, Margaret Mallory, Kathleen Snyder and Valerie Gale. Each totalled 324 pins during a three-game series.

Freeman High On Cincinnati Team Chances

John Ellessor, Dr. Robert Hagerly and Ronnie Cornwell are to play at Circleville.

Miss Marilyn Cunningham came through with a birdie 4 on the No. 4 hole last week when she hit three wood shots and sank a 60-yard approach with a No. 7 iron. Capuana said he could not recall that a woman ever got a birdie (one under par) on this long hole.

THIS AND THAT from the pro's notebook:
Ralph Bray shot a 44 his first time out this season.

Roger Grimm shot a 38 for his best ever last week when he took only 13 putts and sank a chip shot for a duc on No. 5 green.

John Petty got an eagle on the long No. 4 hole without ever being in his own fairway. His drive was into the No. 3 fairway, his second shot made the green and he sank his putt.

Mel Shaw visited the club last week. He used to play a lot of golf at the Country Club course.

Robert Frizell golfed at Zanesville over the weekend.

The golfer with the bright French cap is Bernie Light.

Dan O'Brien, one of the club's top golfers, was here for the weekend.

Mrs. O. W. Landrum is a new golfing member.

Mrs. George Fox has had her 10-year-old daughter out golfing.

Scott Molyneaux, 75, sank his approach shot on No. 8 green.

John Rhoads had his first-ever birdie on the No. 9 hole.

Max Lawrence and Harry Thrall, partners in the Associated Plumbers Co., golf together every other Thursday afternoon.

Stan Hagerly had eight one-putt greens in the same 9-hole round Saturday. He two-putted on No. 6.

The Rockets took advantage of slippery Helfrich fielding Monday night and picked up an 8-1 Little Major League victory at Wilson Field.

One-hit pitching by the Rocket's Henderson and a few fielding slips handed Helfrich's the defeat.

The win pushed the Rockets closer to the top of the junior circuit.

Dean Merritt fought valiantly for the losers, picking up the team's only hit during the game. The single run went to Carroll Deiber.

Henderson scored two runs for the Rockets to lead his squad. Others scoring were Charles Rhoads, Joe Keefe, James Thomas, Ronnie Wilson, Donald Callender and Gary Hoppes.

Scott Frost Due To Test Galophone

CLEVELAND (AP) — Scott Frost, winner of the 1955 Hambletonian and the Harness Horse of the year last season, will go to the post in the \$12,500 added Grandview Trotting Derby on Thursday night.

The trotter, owned by the S. A. Camp Farms of Shafter, Calif., arrived in Cleveland today along with the great Maine star, Galophone.

The assurance that Scott Frost would go to the post gives the Trotting Derby two of the world's greatest trotters. Galophone defeated Scott Frost in the latter's initial start of the season two weeks ago.

While these two famous trotters have taken over the spotlight there are such other standouts in the event as Jean Laird, Way Ghost, Lady Dunn, Lord Steward, Childs Hanover and Famous Springer, any of which could bring a surprise.

Robert Parish, Mgr.

Seals Hammer Out 7-5 Babe Ruth Win

Stale from a week's layoff, the Babe Ruth League Seals beat the Frozen Food nine, 7-5, in a game which saw each team collect no fewer than four errors.

Ronnie Wilt collected ten strikeouts, but gave up five hits and three walks. It was the seventh win for the Seals against two defeats.

Gil Crouse led the winners at the bat with three big runs scored on one hit. John Campbell added two more.

For the losers, the hits and runs were evenly spread about. No boy got more than one.

Seals Hammer Out 7-5 Babe Ruth Win

Stale from a week's layoff, the Babe Ruth League Seals beat the Frozen Food nine, 7-5, in a game which saw each team collect no fewer than four errors.

Ronnie Wilt collected ten strikeouts, but gave up five hits and three walks. It was the seventh win for the Seals against two defeats.

Gil Crouse led the winners at the bat with three big runs scored on one hit. John Campbell added two more.

For the losers, the hits and runs were evenly spread about. No boy got more than one.

Hank Aaron Is Big Pest To Brooklyn

Famed Bad-Ball Hitter Leads Way to Braves' 8-6 Win over Bums

By THE ASSOCIATED PRESS
Joe Adcock rocks Brooklyn with his home runs, but Hank Aaron, Milwaukee's famous bad-ball hitter, really gives the Dodgers fits.

"Aaron doesn't come into a ball park looking for bases on balls," said Brooklyn right-hander Carl Erskine. "He'll swing at anything he thinks he can hit. A pitcher gets nowhere going outside the range of his bat."

Right-handers Roger Craig and Ed Roebuck and southpaw Ken L. H. m. a. n. got nowhere against Henry, batting .417 against Brooklyn and leading the National League at 342, Monday night. He smacked three hits in five trips, driving in four runs — including the clincher with his 16th homer — as the first-place Braves socked the Dodgers 8-6 in the opener of a four-game set at Ebbets Field.

It was Milwaukee's seventh straight against the Braves and knocked the third-place world champs five games behind while keeping the Braves 2½ games ahead of Cincinnati, a 4-2 winner at Pittsburgh.

In the only other NL action, Philadelphia jumped a past Pittsburgh into fifth place by beating the Chicago Cubs, 5-4 and 4-2, in a two-night twin bill.

In the American, Mickey Mantle socked his 33rd and 34th home runs, one of his first grand-slammer of the year, and drove in six runs as the New York Yankees again claimed a 10-game lead with a 13-6 decision over runner-up Cleveland. Detroit beat jinx Frank Sullivan and Boston, 4-1, on Virgil Trucks' three-hitter. Bob Niekamp's 10th-inning homer beat Kansas City for Baltimore 4-3.

Chicago and Washington were not scheduled.

Aaron, a 22-year-old right-handed spray hitter, knocked his homer with a man on in the seventh off reliever Roebuck for a 7-1 lead. He doubled home a ninth-inning run, but then the edge was 8-4 as Buhl won his 14th and sixth in a row over the Dodgers but wound up still without a complete game at Ebbets Field.

The Dodgers put across three runs in the eighth and brought on Ernie Johnson, who gave up a two-run homer to Peeewe Reese in the ninth before nailing it.

Ed Mathews and Adcock also homered to help rock Craig to his first Ebbets Field defeat after winning 19 straight. Adcock, batting .455 vs Brooklyn, socked his 23rd with a man on in the fifth. It was Joe's ninth against the Dodgers this season.

The Redlegs swept their five-game series at Pittsburgh on Gus Bell's third-inning double. Ray Jablonski had singled home two in the second against loser Laurin Pepper. Tom Acker started and lasted until the Bucs' two-run fifth when reliever Hershel Freeman came on to win his ninth.

Harvey Haddix, who didn't walk a man while winning his ninth, took his fifth in a row and gained the NL strikeout lead with 116 by fanning eight in his four-hit night-cap job for the Phils. Elmer Valo homered for the Phils, who had two unearned markers. Walt Moryn hit his 13th for the Cub runs, and also smacked one off Robin Roberts, now 11-11, in the opener. Ernie Banks tagged Robin for his 24th.

Mantle, who has smacked nine homers against the Tribe, got No. 3 off Bob Lemon with his bases-loaded job as New York scored seven runs, all unearned, in the second. Whitey Ford struck out 10 to win his 14th with Mantle getting his other homer—going one ahead of Babe Ruth's record 60 paces — off reliever Bob Feller.

Trucks, who walked eight, gave up singles to Billy Klaus and Don Buddin and a homer to Mickey Vernon while the Tigers, who had lost 11 in a row to Sullivan, won it with two runs in the fifth on two-out singles by Frank House and Jim Small.

Niekamp's bust-up homer; his 10th, was off reliever Tom Gorman. Oriole starter Ray Moore homered with a man on for a 3-1 lead, but gave way as the A's rallied. Mike Fornieles won it in relief.

Legion Tourney Taking Its Toll

COLUMBUS (AP) — At least two more teams will be out of the double-elimination American Legion Junior Baseball Tourney tonight.

Two loser's bracket games were scheduled today—Conneaut vs. Defiance and Springfield vs. Barberton. Grove City, which fell before Zanesville 4-2 yesterday, meets Steubenville, 5-2 victor over Conneaut.

St. Marys was out of the tourney after a 5-3 loss to Cincinnati—eliminated for using an ineligible player.

Three winner's bracket games pit Cincinnati against Elyria, Portsmouth against Lancaster and Euclid against Zanesville. Elyria downed Defiance 5-1, Portsmouth trounced Newark 9-2, and Lancaster defeated Springfield 2-0 in the opening round.

Golf's 19th Hole

The gold program, with many variations, continues without let-up at the Country Club here.

Even before the handicap tournaments, one for the men and one for the women, are completed, 18-hole scores for the club championship tournament have started to come in from golfers wanting to qualify for the event, Tony Capuana, the club pro, said. Deadline for qualifying scores is Aug. 5.

Glen Roseboom, Dr. O. W. House, Lon Tannehill and Wayne Shobe are planning to play in the Columbus senior tournament in Columbus on Aug. 9 and 10.

Dick Korn, Ronnie Cornwell and Bill Himmelpach all won prizes at a golf meet in Columbus last week.

The next club dance has been scheduled for Sept. 22.

The annual parent and child Scotch foursome is expected to have a sizeable turnout on Sunday, Aug. 26, starting at 3 p. m.

The next regular Scotch foursome is set for Aug. 12. A buffet supper is to follow play on the course.

Next Sunday, Bill Himmelpach,

Jets Beat Cubs in Wild Scoring Bee

The Jets outscored the Cubs, 14-12, in a wild and woolly post-vacation Little Major League game at Wilson Field Monday evening.

Everything fell apart for both teams in the third inning when the Jets scored 11 runs and the Cubs nine. Other than that single loose frame, the scoring indicated an exciting 3-3 game.

Gary Kimball went the pitching route for the losers, giving up only seven hits as contrasted with ten for the three boys who did mound duty for the Jets. Fielding failures gave the victory to the Coca-Cola team.

Medics Edge Jeff 3-2 in Tight Game

The Medics edged out a tight, 3-2, victory over Jeffersonville Monday evening at Jeff in a hair-raising neck-and-neck Babe Ruth League encounter.

Moving into a 2-2 tie in the second, Jeff held the lead until the fourth when the Medics picked up their winning run. All the Medic efforts after that couldn't prevent the victors from keeping the lead.

Eddy Lee scored the winning run for the Medics in the fourth on a passed ball. Lee had originally got on base with a double — the only extra base hit of the game.

Three big singles brought the Medics runs in the second, with Larry Johns batting in Bob Scott and Larry Kilgore.

For Jeff, the scoring was done by Earl Burns and Jim Cook who came home on passed balls.

Freeman High On Cincinnati Team Chances

PITTSBURGH (AP) — Heeshell Freeman, the ace relief pitcher of the Cincinnati Redlegs, says he does not care if he ever starts a game "as long as we can win the pennant and the World Series."

"And I think we can do both things with the great team and great manager we have," Freeman added last night after picking up his ninth victory against three losses in a 4-1-3 inning relief chore against the Pittsburgh Pirates.

The Redlegs 4-2 win completed a sweep of their five-game series with the Bucs and kept them only 2½ games back of first place Milwaukee.

"We've got eight games in 11 days with the Braves coming up soon and we'll beat them," said Manager Birdie Tebbetts as he took time out to discuss the flag race. As for the 28-year-old Freeman who has saved 18 Redleg victories, Tebbetts declared:

"He's simply the best relief pitcher in the National League. He's got what it takes. And he does not have to worry about anything. He's strictly my relief pitcher, my ace in the hole."

Last night Freeman relieved Tom Acker in the fifth inning with two Pirates aboard, two runs in and two out. He promptly got a pinch hitter Bob Skinner on an out-field fly, then scattered three harmless singles over the last four innings to preserve the win.

Freeman, who struck out three last night, has 32 strikeouts in 69 innings. He's appeared in 38 of the Redlegs' 96 games and has a 3.80 earned run average. Up to last night his longest stretch on the mound was a four-inning relief chore against New York.

Attendance for the 79-day American Bowling Congress tournament at Rochester, N. Y., averaged 1,058 paid admissions per day.

Rockets Flare; Beat Helfrich Nine, 8-1

The Rockets took advantage of slippery Helfrich fielding Monday night and picked up an 8-1 Little Minor League victory at Wilson Field.

One-hit pitching by the Rocket's Henderson and a few fielding slips handed Helfrich's the defeat. The win pushed the Rockets closer to the top of the junior circuit.

Dean Merritt fought valiantly for the losers, picking up the team's only hit during the game. The single run went to Carroll Deiber.

Henderson scored two runs for the Rockets to lead his squad. Others scoring were Charles Rhoads, Joe Keefer, James Thomas, Ronnie Wilson, Donald Callender and Gary Hoppes.

Scott Frost Due To Test Galophone

CLEVELAND (AP) — Scott Frost, winner of the 1955 Hambletonian and the Harness Horse of the year last season, will go to the post in the \$12,500 added Grandview Trotting Derby on Thursday night. The trotter, owned by the S. A. Camp Farms of Shafter, Calif., arrived in Cleveland today along with the great Maine star, Galophone.

The assurance that Scott Frost would go to the post gives the Trotting Derby two of the world's greatest trotters. Galophone defeated Scott Frost in the latter's initial start of the season two weeks ago.

While these two famous trotters have taken over the spotlight there are such other standouts in the event as Jean Laird, Way Ghost, Lady Dunn, Lord Steward, Childs Hanover and Famous Hanover, any of which could spring a surprise.

Hayes Gives List To Big Ten Boss

COLUMBUS (AP)—Ohio State football coach Woody Hayes has agreed to give Big Ten Commissioner Tug Wilson a list of university players who received "loans" from the coach.

Hayes said he complied with the commissioner's request but only after Wilson agreed to two conditions:

1. That the list would be strictly confidential.

2. That no player would be punished.

Wilson placed Ohio State on probation April 26, stating that Hayes

"ITS SO EASY TO PLACE A WANT AD."

Sport Candida

BY FRANK KUCHIRCHUK

EYEING the streamer, 16 inches worth of fighting rainbow flashed out of its camouflaged concealment on the stream bed, and snatched the lure. Underwater, the fish received an unexpected jolt as angler Ken Hard reared back on his flyrod, setting the hook. Overwater, the fisherman whooped joyously, yelling for his partner to come on the run. "Look at this beauty! Loveliest fish on the river!"

Taking rainbow, brook and brown trout out of two miles of river and 50 acres of lake is an everyday occurrence at Suffolk Lodge in Brookhaven, Long Island. The owners rear gamefish for an angler's pleasure, and metropolitan fishermen flock from under the shadow of the Empire State building to take advantage of an unspoiled wilderness preserve only 60 miles from the skyscraper city. It's a perfect setting for angler-conservationists, who often release the gallant fighters as they're brought to the net.

Marion Signs Up Marysville Coach
MARION (R)—James A. Gibson, 28, head basketball coach at Marysville High School, has been appointed to the same post at Marion Harding High School. He succeeds James T. Lawler, who announced last week he was resigning to enter private business.

Tim McCoy, Youthful at 65, Back for New Movie Stint
By BOB THOMAS
HOLLYWOOD (R)—"After you've been a star, it's a tough thing to do parts in pictures."

This was Tim McCoy talking of his return to film acting after a 14-year absence. The famed cowboy actor never played anything but a starring role in films until recently.

"Heavens, I don't mind playing supporting roles," he said. "The thing that worries me is how it will affect other people."

"Except for a tight little group of pioneers, I consider most of today's movie makers newcomers. I fear that when they consider me for a part they'll say, 'Tim McCoy? Why, I remember him as a kid. He must be 70 years old and confined to a wheelchair.'"

I can testify that Tim is no invalid. He presented a sharp figure when he arrived for lunch in his gabardine suit, boots and broad-brimmed white hat. I was astounded when he confessed he was 65. His face has the skin of a boy. He attributed his youthful appearance to a life of exercise and outdoor living.

Tim returned to films to play a general who makes peace with the Indians in "Run of the Arrow." (He doesn't count his guest appearance in "Around the World in 80 Days.") The role should have come easily for him. He was a real western cavalryman—and a general.

He had the temporary rank of brigadier general at 28, serving as adjutant general in Wyoming. His advent to movies was freakish.

Paramount was filming the western spectacle, "The Covered Wagon," and a location man had fouled up the negotiations with Indian extras. Tim, who could speak sign language with several tribes, was enlisted to help.

He did so well that Paramount invited him to bring a bunch of redskins to appear in a prologue to the picture at the Grauman's Egyptian. The stunt was a success, and he repeated it in London and Paris.

"When I got back, MGM decided to cash in on all the publicity I had gotten and signed me to star in western pictures," he recalled. "I was the only western star the studio ever had."

Tim appeared for many years in MGM films (among his costars: Joan Crawford), then had his own series at Universal, Columbia and Monogram. Although over-age, he got back in the Army on his reserve commission in 1942. He served in Europe as a full colonel, acting as liaison between air and ground commands.

"After the war, I decided not to come back to pictures," he said. "I had other activities, and the program western was just about dead." He credits singing cowboys with helping to kill it—"they'd whip out a guitar instead of a gun."

Despite his western background, he felt the urge to buy an old eastern house and settled in one built in 1738 in Bucks County, Pa. He left it for the lure of television. He won a TV academy Emmy for his local show in which he tells youngsters of his vast knowledge of Indian lore.

It's a Hog's Life
OKARCHIE, Okla. (R)—A hog's life on Lawrence Wittrock's farm is mighty tempting.

Wittrock bought an air conditioner to put in the hog barn. Some of his sons were about to give birth and he wanted them to be comfortable.

Board and Room
By Gene Ahern
AT FIRST, JUNIOR I WAS USED WHEN YOU ROCKS OFF THAT BIG CHUNK OF STONE, BUT THEN I REALIZED THE FRACTURE WOULD MAKE IT BREAK AWAY WHILE I WAS SCULPTURING THE ACTUAL STATUE!

UM, NOW THE BIG PROBLEM IS TO GET THE MONSTRIOUS BLOCK AND BROKEN SECTION HAULED AWAY... BUT THEY'RE IMPOSSIBLE TO LIFT!

NOT IF THEY'RE BUSTED IN SMALL CHUNKS... I'LL DO IT WITH A SLEDGE HAMMER. I'LL BE GOOD RASSLIN' TRAININ'!

THE RUST-UP WILL PRODUCE A GREAT DISCOVERY

PRINCESS Margaret makes a lovely and stately figure as she reviews parade at Sandhurst, Britain's "West Point," as a stand-in for her sister, Queen Elizabeth.

(International)

Mantle's Bat Cooling Off Indian Hopes

CLEVELAND (R)—Mickey Mantle is swatting the Cleveland Indians out of the American League pennant race.

The New York Yankee slugger smacked two more homers off Cleveland pitchers last night, as the Yanks reclaimed a 10-game lead over the second-place Indians with a 13-6 victory.

Cleveland's pennant hopes, already dim, were reduced to a mere flicker. If the Yanks lose every other game the rest of the way, the Indians will have to win two out of three.

Mantle's two homers, his 33rd and 34th of the season, put him one game ahead of Babe Ruth's pace when he hit 60 in 1927.

He's hit safely in all 15 games against Cleveland, and is batting .373 against them. That's a major reason why the Yanks have won the last eight contests between the two teams.

No. 33 came in the second inning off starter Bob Lemon, who in the lower right field stands. That was the inning in which New York scored seven unearned runs while making only three hits.

also was the loser, and it landed No. 34 came off Bob Feller in the fifth inning.

In between the Mantle homers was another by Martin in the third, driving in Andy Carey. It was an oddity, a line drive which outfielder Al Smith caught by leaping against the left field fence.

But Smith, in falling over the fence, dropped the ball, and Martin was credited with his sixth homer of the year.

90 Boys Tee Off In Jaycee Test
FINDLAY (R)—Ninety boys from 30 Ohio cities tee off today in the 36-hole State Junior Chamber of Commerce Golf Tournament at Findlay Country Club.

The four top scorers will qualify for the National Jaycee Tournament at Fargo, N. D., Aug. 18.

Home for Dogs
McALESTER, Okla. (R)—Mrs. Tom Garrard operates an unofficial, one person humane society.

During a recent 6-week period, Mrs. Garrard found homes for 36 dogs.
